企业简介 INTRODUCTION

SINO HOLDINGS consists of 7 branch companies. They are : Sino Mould Co., Ltd; Sino Package Mould Co., Ltd, specializes in top quality packaging mould projects; Sino Pipe Fitting Co., Ltd in complicated high standard pipe fitting system moulds; Dakumar Machinery Co., Ltd devotes itself to high quality injection machine manufacturing; Anole Injection Technology & Sino Co., Ltd. focus on hot runner system and hydraulic systems for injection technology. Sino Electron Co., Ltd with patent conception of electronic equipments, Sino Automotive Mould Co., Ltd specializes in automotive parts moulds manufacture.

Base on our rich know-how, SINO HOLDINGS lead you in all the way to success. Our top engineers from SINO R&D Department invent new mould design and structure, new technology and patent with more than 50 patent & inventions.

SINO MOULD is the innovator in Chinese plastic mould industry. Since 1992, by jointing decades of rich experience and adopting the world's updated plastic moulding technology, SINO team has established a special management system for mould project. SINO MOULD whole working team absolutely trust that good quality and service based on good management.

High mentality, high technology, continuous research, all these facts keep SINO MOULD in the leading role. Till now, SINO MOULD has successfully developed various of high standard moulds, and is able to offer our customer with a complete strategy for:
IML solution, air assistant injection solution, high speed thinwall injection solution, stacking moulds solution, as well as multi-color injection solutions.....

In order to serve our customer well, SINO MOULD has set up the offices and agents in regions and countries worldwide. With high standard mould design, high quality tooling outcome, efficient daily communication and prompt delivery of moulds and spare parts, SINO MOULD guarantees that you can achieve maximum out of profitable investment.

西诺控股集团包含7个分公司：西诺模具有限公司；西诺包装模具有限公司，西诺管件模具有限公司，浙江德库玛机械有限公司，阿诺立注塑科技有限公司，西诺电子有限公司，西诺汽车件模具有限公司。

西诺控股集团拥有强大的工作团队。逾50名工程师致力于新的技术和专利的研发工作，分别在43个不同项目中取得了成功。西诺模具近10年来，不仅专业于各类高档次模具生产，还成功的给国际塑料行业客户提供了先进的模内贴解决方案，气辅注塑，汉堡模具，双色注塑等高端科技解决方案。

基于其优良的管理措施与质量理念，西诺控股已积累了丰富的经验，西诺人也会一直秉承质量带动发展的理念，继续创造奇迹。

探索的勇气源自信心，实力源自专业与专注，多赢源自时刻以客户为先。
所以，在您做出下一个选择前，请想起西诺，我们会为您想的
更新、更好、更周到，让您更满意

The courage probing is originated from confidence , strength is originated from special field and is absorbed, win much be originated from moment being with the customer first. Our renewal that can be that you think of, is much better , more thoughtful therefore, remembering SINOMOULD before you do out next choice,please, make you more satisfied

ISO9001
质量管理体系认证
QUALITY SYSTEM CERTIFICATE

We offer you not only a mould, but a fine solution.....

打造一流模具精品，尽一切努力让您满意！
Creating classic qualified moulds, do our best to make you satisfied!

**Every mould project holds the principle
of meeting customers' complete satisfaction**

Measure up to D-M-E standrd

A very Top mentality of mould tooling and design
Mould industry solutions

SINO MOULD is a leading plastic mould designer and manufacturer in china . We firmly believe "quality is our life, reputation is our further developments" . We have very strong confidence to serve you well and make you satisfied.

Quality Honesty Responsibility

A very top mentality of mould design
Top quality of mould tooling and workmanship(measure up D-M-E standard)
A good Joint point of the price and quality
Respect your expensive time

Mould Tooling Schedule & Processing Report

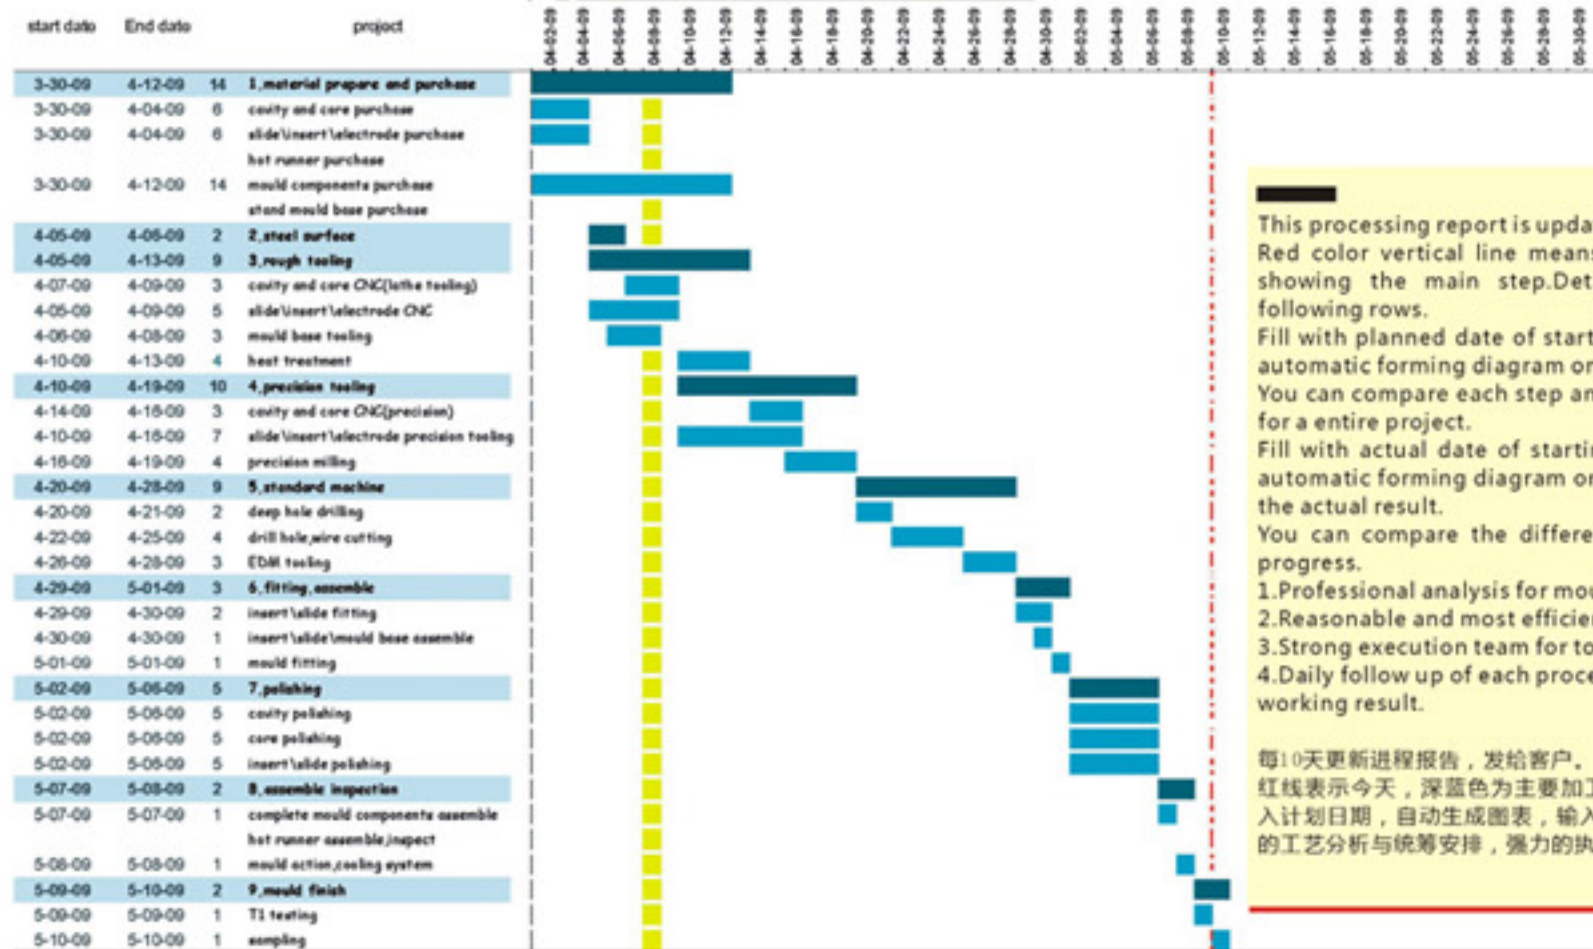

Processing schedule & project management
Quality. Honesty. responsibility 01/02

Tel: +86-576-84023777, Fax: +86-576-84018996
E-mail: mould@china.com http://sinomould.com

Mould Tooling Schedule & Processing Report

starting date: 3-30-09 project Nr. sino9088
T1 date on: 2009-5-9 mould name: 5 moulds

This processing report is updated to customer every 10 days. Red color vertical line means TODAY. High mark blue Rows showing the main step. Detail processing steps listed in following rows.

Fill with planned date of starting and ending on the left side, automatic forming diagram on the right side.

You can compare each step and find the most reasonable plan for a entire project.

Fill with actual date of starting and ending on the left side, automatic forming diagram on the right side. Black line means the actual result.

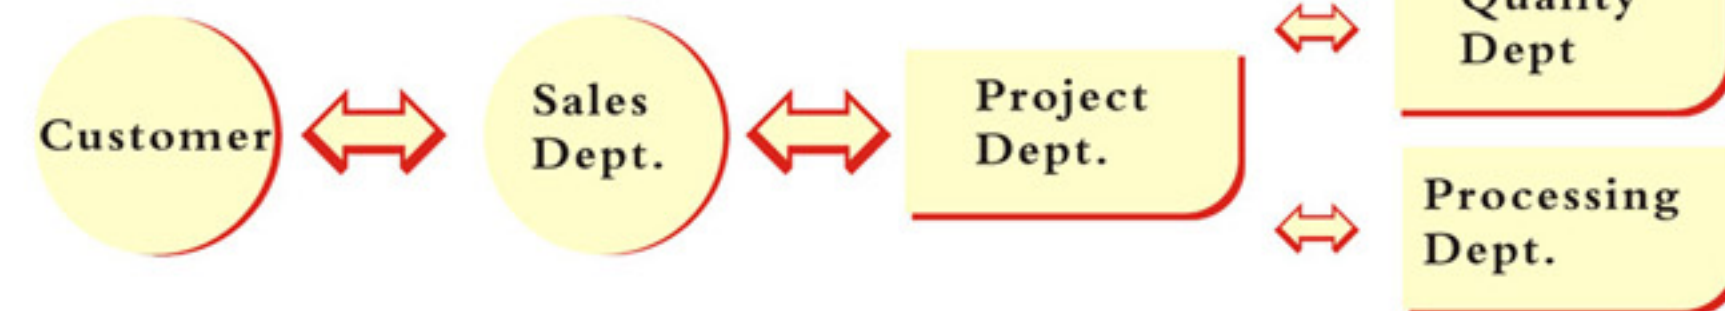

You can compare the difference of plan and actual tooling progress.

1. Professional analysis for mould processing technic.
2. Reasonable and most efficient plan for entire project.
3. Strong execution team for tooling schedule.
4. Daily follow up of each processing & strict checking of working result.

每10天更新进程报告, 发给客户。

红线表示今天, 深蓝色为主要加工步骤, 浅蓝色为详细加工步骤, 输入计划日期, 自动生成图表, 输入实际日期, 自动生成对比图表, 专业的工艺分析与统筹安排, 强力的执行队伍。

SINO MOULD project management system

Advantages:

1. Sales dept. contact directly with project dept. for all communication and technical information. We fully understand customer requirement and set up one complete record for customer history and record technical data.
2. Sales dept. and project dept. separately and clearly take each responsibility for one project, and devote all effort to achieve whole project.
3. Place high importance in delivery time and quality.
4. Every detail point can be tracked during order flowing. SINO mark each process by exact o'clock time and arrange every mission immediately the moment it released. For example, Steel material BOM list forwarded to purchase dept. at 16:15pm, 10th, April, 2009. Material purchase effected at 17:05pm, 10th, April, 2009. So as to avoid any delay or even looking up any holding up of one project with knowing reason of the time difference of each step.
5. ISO/TS 16949 quality system to control quality, improve quality and management to avoid unreasonable expense of order running.
6. Every meeting between project dept. and production dept. arrange well the order running and improve the quality mentality, strong execution of SINO quality standard and mould tooling standard.
7. Good technical training for stuff in all fields, at the same time SINO HOLDINGS invest every year special fund for R&D dept engineers continuously technical invention and patent.....

管理优势:

1. 业务部直接与客户联系并讨论技术问题, 项目经理与业务员独立责任制更加确保项目执行准确无误, 职责分明。
2. 一套详细完整的客户档案管理的单据, 也可及时发现疏漏, 解决问题。
3. 项目部直管进度部和质管部, 确保每付模具的交货期和质量。
4. 跟进每一订单流程, 西诺做到进程控制到具体时刻, 第一时间落实任务。
5. ISO/TS 16949管理体系预防损失, 合理控制成本。
6. 每个技术会议都会确保模具的最佳设计方案和加工工艺, 进度部对每个加工细节进行控制。
7. 公司内部有自己的技术、文化培训, 每年公司投入大量研发资金在研发领域硕果累累。

4cavties crate mould

We offer you not only a mould, but a fine solution.....

Crate size 400*300*160 mm
Moldmax core cavity& slide molding area for high speed injection

Crate & pallet moulds 15/16
Quality. Honesty. responsibility

Do you need a very high speed injection mould for crate?
Come to SINO, Please.

Bottle crate mould high speed solution.....

- Advanced structure for 4 inner angle lift
- fully automatic ejection system
- optimal cooling system and advanced air venting system
- interchangeable inserts for different crate design in one mould
- moldmax application for high speed injection
- Ideal hot runner system for recycle material
- long last mould life
- high speed injection

4cavities crate mould

We offer you not only a mould, but a fine solution.....

4cavities cratte mould 17/18
High speed injection

We have made 80sets of crate moulds in the year 2008.

A common design crate mould will have flash after one year running.
Sino design crate moulds will give you a solution for that. The flash adjustable system can help you avoid flash through 5 year production.

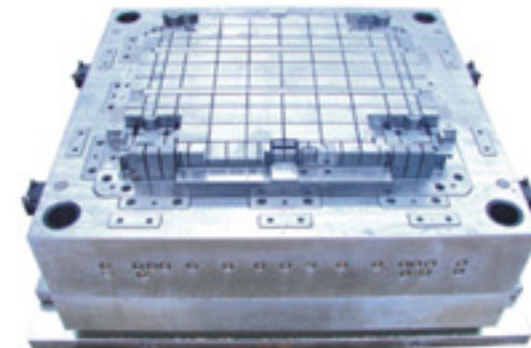

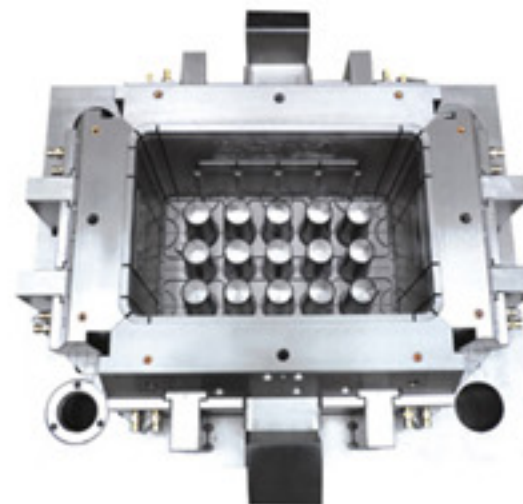

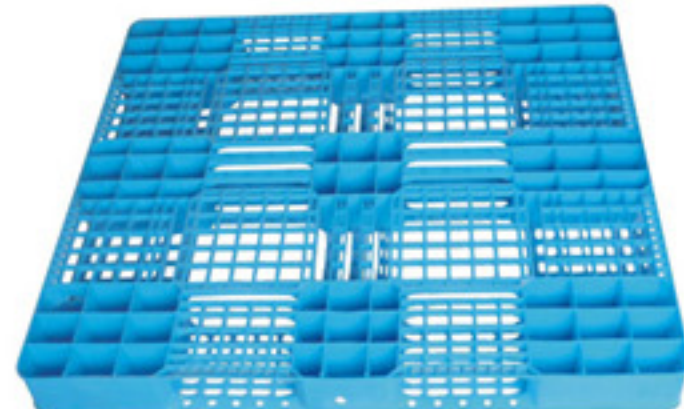

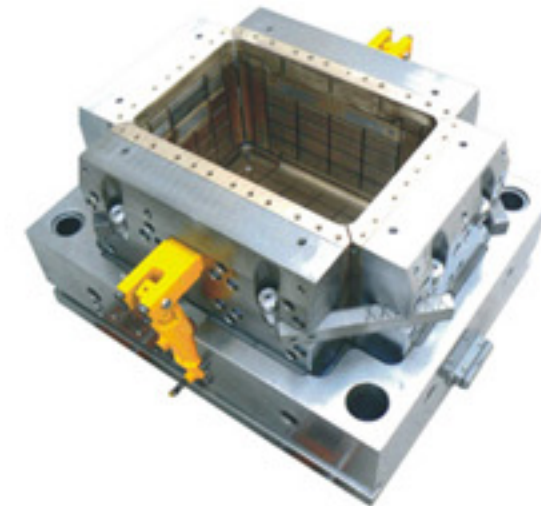

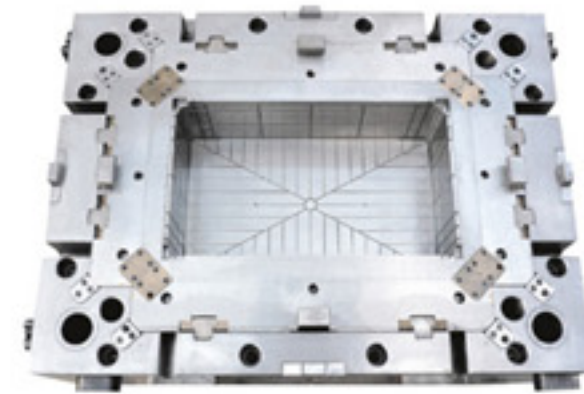

Bottle crate & pallet moulds

We offer you not only a mould, but a fine solution.....

Crate and pallet moulds 19/20
High speed injection & Ready for recycle material

Come to SINO. We offer you a fine solution.

Want to produce crate or pallet mould by bad recycle material with steel piece or stones inside?

SINO HOLDINGS

www.sinomould.com

We make every year more than 60sets chair & table moulds.

Chair & Table series

- The cooling channels are made accordingly with the parting surface's curve, this keep the even cooling.
- All the plastic moulding area with optimal cooling
- The precision cavities and parting surface tooling avoid the chair with sharp edge and burrs
- precision air venting design and tooling..
- Good technician manual polishing plus hard chrome plating keep the chair long time lasting shine.
- Interchangeable back design inserts
- Use 6000x3000x2000 CNC milling machine for tooling
- Use 300Ton pressing machine for cavity & core fixing
- Use gun drilling machine for all the holes drilling

High standard chair & table moulds

- Every year produce more than 60 sets of chairs
- Interchangeable insert block for different versions of chair backrest
- backrest inserts can be easily replaced on the machine

- Quality points:
- Good stacking
 - Optimal cooling system
 - No flash, no sharp edge
 - Good polishing
 - Strong leg & backrest

Moldmax application in 240L garbage bin mould

We offer you not only a mould, but a fine solution.....

Dust bin mould 25/26
Quality. Honesty. responsibility

Industrial garbage bins & household dust bin

We have the confidence that
we are the most professional bin moulds manufacturer in china
