

Dezhou Boao Machinery Co., Ltd is a manufacturing enterprise which includes development, design, manufacture, sale and export trade. Established in July,2004, it is one keystone in deep hole machine and deep hole dedicated machine field of China.

We commit to deep hole machinery development and manufacture. The deep hole boring diameter is from 1.5mm to 1250mm and boring depth is from 0.5m to 15m. The main products are deep hole drilling and boring machine(T2120, T2125, T2135, T2180, T21100), deep hole boring machine(T2225, T2235, T2250, T2280 T22100), CNC deep hole honing machine (2MK2125, 2MK2135, 2MK2150, 2MK2180), CNC skiving barreling machine(TGK series), CNC deep hole drilling machine(ZK2102, ZK2103, ZK2103B ), CNC deep hole drilling and boring machine(TK2120, TK2135, TK2150, TK2180, TK21100), CNC turning and boring machine, steel pipe special grinding machine and some machine tool accessories.

Having passed ISO9001:2008 and TUV authentication, our company will insist on the principle of "quality first, customers first ". Hope to cooperate with friends of all circles!
