PRODUCT GUIDE

7/2013 Edition

PROVIDING SAFETY, EFFICIENCY & PRODUCTIVITY

TAKING THE 'HARD' OUT OF HARDWORK

Instead of telling you what you want, we pride ourselves on listening to what you need. And then making it happen.

That's why Backsafe continues to pave the way in Australia for providing innovative and varied solutions that meet your unique requirements and purposes.

Nothing speaks volumes like a satisfied customer and our success is testament to our passionate team who strive for superior professional service.

100% product suitability, 100% of the time.

It's our promise.

It's our promise

Our Values To You...

We're a family run business so it's no wonder that the values that mean everything to us, are most likely important to you too.

- **We Listen**

Our ears aren't painted on. We really do understand what you want and what you need.

- **Be Innovative**

We work to be consistently one step ahead of the pack and create bigger and better solutions.

- **Blue Sky Thinking**

We aim to go above and beyond every time.

- **Be Confident**

With over 20 years in the business, what we do is our life blood. No one gets it better than we do.

- **Be Accountable**

We guarantee to always take responsibility and have an ethical approach to every element of our business.

Mezzanine Floors

NEED MORE FLOOR SPACE?

Raised Storage Platforms Mezzanine Floors

Installing a Mezzanine in your warehouse, garage or factory, can double your usable floor space and increase the functionality of your business. Backsafe freestanding, custom-designed mezzanine floors are not only cost effective, but also incredibly fast to install.

If you have outgrown your existing space, or simply need to de-clutter your valuable work area, a Backsafe mezzanine floor could be the solution for you.

MINIMUM DOWNTIME = MAXIMUM CONVENIENCE

The components of the Backsafe mezzanine floors are manufactured in our workshop and then assembled onsite. This process results in minimum downtime and disruption to your workplace, with most mezzanines installed within 1-2 days!

Our floors are all OH&S compliant and certified for loading. The structures are steel fabricated with a timber floor (either termite treated or ply) with a fully welded steel staircase.

FREESTANDING... RE-LOCATABLE

Backsafe mezzanine floors are freestanding, therefore they are also demountable and re-locatable. The floors are designed with minimum posts to create maximum clear, uncluttered work or storage area underneath. They are engineered to suit your needs in size, shape and load.

DESIGNED TO SUIT ANY SPACE & ANY BUSINESS

Backsafe mezzanine floors can be customised to suit any building shape and business operation. We can custom design a floor to suit your open space, or to fit over the top of equipment or other structures in your warehouse. We can also add to your existing mezzanine ...the possibilities are endless..

- ◆ Freestanding.
- ◆ Re-Locatable.
- ◆ Custom built to your needs
- ◆ OH&S compliant

*Why move...?
When you can create more space!*

- Clean design allows forklift operator full vision of the grip mechanism.
- Long life galvanised finish.
- Able to lift damaged drums.

11640003

Engineers Mat D150

The ultimate heavy duty anti-fatigue comfort in the workplace.

- ◆ Elevated rib design provides maximum traction reducing 'time off injuries'.
- ◆ Large hole gives good drainage and allows swarf and weld spatter to fall through.
- ◆ 25mm thick heavy duty abrasion resistant rubber.
- ◆ Heavy duty design aims to keep your plant cleaner and safer.
- ◆ Large 50mm yellow safety border provides a visible non-slip edge.
