HIGH-VALUE PRODUCT SHIPMENTS AND LOGISTICS

LEGACY

Legacy specializes in careful handling and transportation worldwide of high-value products and other specialized cargo. Our entire operation is focused on very careful handling and transporting high value products and equipment – from load and transport to unload and delivery.

Legacy's systems and processes have been refined over more than 20 years, and Legacy is one of the country's leading providers of high-value product shipping and logistics services, including permitting, routing, oversize loads, carnet documents, flatbed services and more.

SERVICE HIGHLIGHTS

- Air ride fleet with lift gates and climate control
- Trained, professional team of customer reps, drivers, operations staff
- Careful handling, on-time delivery
- ISO 9001:2000 certified with Unigroup Logistics
- EDI transaction support
- Customized shipping solution for your high-value products

Electronic, semiconductor capital equipment, aerospace, medical and other high-value equipment requires transport in a sensitive and stable environment. Our dedicated and growing fleet of climate controlled trailers with lift gates and air-ride suspension assures your very critical shipments travel at optimal temperature and in a safe, secure environment.

Each and every shipment is handled with extreme care, both during transit and loading/unloading. All Legacy drivers and operators are specially trained to handle and transport delicate and high-value products and equipment.

Van line shipments are tracked using state-of-the-art GPS tracking systems, allowing us to pinpoint the location of your equipment and communicate with our drivers 24 hours a day, 7 days a week. Drivers are equipped with smart phones and email addresses for constant voice and data communication.

Trained Legacy professionals can assist with your unique pickup and delivery requirements such as inside pickup and delivery, setup, installation and debris removal.

Supply chain management and logistics solutions are customized to meet your needs every step of the way.

AIR FREIGHT

LEGACY

Legacy's dedicated Air Freight Division specializes in air freight services to assist with your product launches, seminars, road shows, conferences, conventions, meetings, trade shows and other marketing events. If a spare or critical component needs to be somewhere quickly, air freight may be the solution. Our goal is to effectively partner with you to successfully achieve your transportation objectives.

AIR FREIGHT SERVICES TO MEET YOUR NEEDS

To meet your scheduling requirements as well as your budget, Legacy offers a range of domestic and international air freight services. Pickup and delivery is by experienced professionals – whether your pick up location or final destination is a customer site, your facility, conference center or convention hall.

SERVICES INCLUDE:

- NFO (Next Flight Out)
- Next Day Air Freight
- Standard Air Freight (2 - 3 day service)
- Deferred Service (4 - 5 day service)
- Air Freight Full Truckload Service
- Air Charters
- International and Domestic Services
- 24 Hour On Call Service

AIR FREIGHT OPERATIONS STAFF

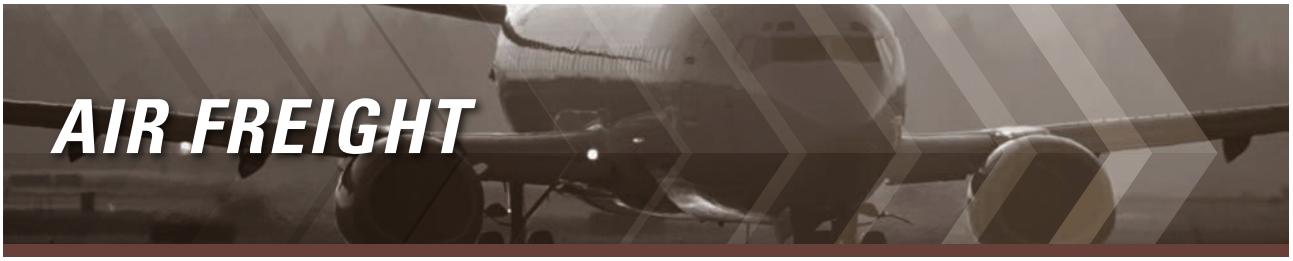

Legacy operates an expert staff for Air Freight Services. Account representatives have years of experience and are among the most knowledgeable, with routing procedures for maximum efficiency, timely delivery and cost effectiveness. Legacy is TSA-compliant and well trained on current air cargo security requirements. Our team has in-depth knowledge of convention centers and excellent working relationships with exhibit contractors to assure smooth and timely move in and out of your properties at trade shows.

ON-SITE REPRESENTATION

Legacy reps are on-site at many major trade shows and customer projects to answer questions, assure problem-free moves, and to arrange forwarding of your materials or products after the event.

CUSTOMIZED TRANSPORTATION AND LOGISTICS PROGRAMS

Whether for a single event or multi-city event, we will work with you to clearly understand your needs and budget, and then tailor a transportation and logistics plan that works for you. We may recommend various modes of air freight, ground transportation and storage. Our goal is to provide optimal, reliable and timely service to you.

AIR FREIGHT

LEGACY

24-HOUR ACCESS

You can speak with a Legacy Air Freight Services representative day or night to place an order, obtain status information on your shipment or make last minute changes.

COST EFFECTIVE PRICING

Our pricing is competitive and your services will be customized with a sensitivity to your budget. Our service options allow us to tailor a program or shipment schedule that works for you.

ADDITIONAL VALUE-ADDED SERVICES

These additional services may help meet your logistic, security or other specialized needs:

- Air ride pick up and delivery
- Specialized van line transportation
- Inside pick up and delivery
- Security cage rental
- Lift gate service
- Storage between events
- All-risk insurance

TRADE SHOW TRANSPORTATION, LOGISTICS AND SERVICES

LEGACY

Legacy is the industry's leading expert in trade show transportation and logistic services. No other firm can offer you the experience and excellence that Legacy provides in terms of customer service, safe handling, on-time deliveries, driver quality and overall operations, including warehousing, crating, refurbing and even building your booth properties.

Trade show transportation offerings include van line, air freight and overseas shipments. Specialized equipment includes high-cube trailers with air ride suspensions and lift gates.

Legacy's approach to trade show services is based on a team concept so you experience absolute excellence in customer service. Your needs are served by a team consisting of account managers, account coordinators, on-site show representatives, warehouse personnel, exhibit builders, dedicated drivers and operations staff.

The entire Legacy team is the most experienced and knowledgeable in the industry, and we work closely with your show and vendor teams to assure your needs and goals are met. We are accessible day and night to accommodate any schedule or logistic change, or other unforeseen events.

Our full service trade show offerings include logistics programs for exhibits and equipment, on-site supervision, careful handling of all your booth properties as well as crate manufacturing and warehousing your properties between shows at strategic locations around the country. We're the best in the business, and we're ready to help assure your show experience is a success.

DEDICATED ACCOUNT COORDINATORS

One of Legacy's key benefits is your account coordinator. This is the person you will work with on a daily basis. Your representative will quickly gain an understanding of your specific trade show transportation and logistics needs (i.e., AV, booth properties, equipment, graphics, etc.) as well as your show schedule, and will become a valuable asset to coordinate your various shipments in a timely manner.

DRIVERS

Legacy's team of experienced and highly trained drivers assures safe handling of your exhibit properties. Legacy drivers have an average of 20 years' experience in exhibit, fine art and high value equipment transportation. They are knowledgeable about trade shows and understand the importance of these events to your company. Our drivers are experts at blanket wrapping and handling fragile properties. Legacy and its drivers have excellent, long-standing relationships with key personnel at drayage contractors and other show services providers. Drivers are equipped with GPS and smart phones, for any-time tracking and direct communication.

TRADE SHOW TRANSPORTATION, LOGISTICS AND SERVICES

LEGACY

ON-SITE REPS

Legacy's on-site logistics reps are at major shows and events. This team works closely with drayage contractors to assure our drivers are checked in, and moved onto the show floor when you need them to be there. Show reps are available 24/7 to help with unforeseen issues, last-minute shipments and assure your show is a success.

SHOW SERVICES AND EXHIBIT TEAM

Legacy's growing service offerings include full-service exhibit design and build, booth refurbishment, show services handling so many of the show details can be handled effectively by a single partner. Custom booth design, custom crates, custom rental properties and more are all part of our expanding exhibit services.

EXHIBIT WAREHOUSING AND INVENTORY MANAGEMENT

Legacy offers temporary storage between shows as well as permanent storage in warehouses around the country. Our inventory system accounts for each piece as it is checked in and out. Legacy offers an Exhibit Services warehouse module so you can control and schedule all your warehoused exhibit properties online.

SECURITY CAGE RENTALS

Security cages are available for use at trade show sites so your smaller properties and spare parts will not disappear, and for easy access when you need them. These locked containers can be transported by truck or by air, domestically or overseas. Interior spaces can be fitted with shelves to accommodate your items.

INSURANCE PROTECTION

Trade show insurance packages provide extra protection against mishaps. This program is unique in the industry because it provides turnkey coverage from time of pick up, unloading and return, including protection from damage by handling between the truck and the show floor. Frequently, this coverage can be an effective alternative to higher cost corporate policy riders.

FINE ART TRANSPORTATION AND LOGISTICS

LEGACY

Transporting fine art and collectibles is an art form itself. Legacy offers you the finest in handling and transportation of irreplaceable items. Our experience includes transporting museum collections and exhibits as well as private collections.

For curators, registrars, artists, gallery owners and fine art collectors, Legacy offers unmatched service quality and care.

Our state-of-the-art equipment, with air-ride suspensions and environmental systems, allows for temperature and humidity control and assures flawless transport. Special lift gates allow careful handling into and out of the van. Our trailers are high cube, which allows maximum efficiency for tall items. Transportation, packaging, handling and logistics services are careful and discreet for this precious cargo.

Legacy's fine art driver specialists are specifically trained and experienced in soft packing and secure transit of priceless art, sculptures, antiques and collectibles. Teamed drivers as well as dedicated van services are available.

You may have security and safety considerations that are unique to your requirements, and we can offer a solution that meets your specific needs.

Legacy offers custom packing and crating, as well as climate controlled storage.

Every fine art move is unique, so please call to discuss how we can craft a fine arts logistics solution for you.

WAREHOUSING AND FULFILLMENT

LEGACY

Legacy offers a full range of warehouse management services, including temporary or permanent storage for high-value products and trade show exhibit properties. Our warehouse management system allows online access for your tracking, management and reporting needs.

Legacy has more than 500,000 sq. ft. of warehouse space in San Jose, Los Angeles, Las Vegas and Chicago areas with access to additional warehouse space around the country and world through our network with Unigroup Logistics. All of Legacy's warehouses are well-located, clean, safe and secured with 24/7 state-of-the-art surveillance systems.

Legacy's northern California warehouse area includes 322,000 sq. ft. with 90,000 sq. ft of racked storage and 36 truck docks. 20 forklifts facilitate loading and unloading, with several large capacity (15,000; 30,000; 36,000 lb) lifts for large shipments and items. Our Chicago area facility includes climate controlled space.

CUSTOM KITTING AND FULFILLMENT PROGRAMS

Services include custom order fulfillment programs for pulling, kitting and packaging, then shipping of products on an "as needed", or JIT, basis. With Legacy's transportation and logistics expertise, shipments are expedited in a timely manner to meet your commitments to your customers or manufacturing facilities. Shipments can be NFO, overnight or any other option anywhere in the world that meets your need.

Fulfillment services are available with electronic request and reporting services.

Services include break bulk distribution and full service custom packaging.

Legacy also offers return merchandise processing and inventory management. Programs include testing returns, repairs and return shipping.

ASSET MANAGEMENT AND REPORTING

Asset management is available for large and small company needs. All stored properties are electronically tagged and monitored. Legacy's Warehouse Management System can be customized to meet your needs, or we integrate with your current inventory control or supply chain programs. You access, order and manage properties or stored items using a web interface.

A variety of inventory management tracking and accounting reports are available for optimal supply chain visibility and efficiencies. Custom reports can be created for your specific needs.

WAREHOUSING AND FULFILLMENT

LEGACY

ACCESS WHEN AND WHERE YOU NEED IT

We can arrange for access to your stored goods at a time that is convenient for you. Warehouse hours are 6am to 7pm Monday through Friday and Saturday 8am to noon. Our warehousing staff is on call 24/7 to help with any unforeseen needs.

Legacy's affiliation with Unigroup Logistics allows us access to more than 25 million square ft. of secure warehouse space in many locations across the U.S., all using the same Warehouse Management System.

Our goal is to help you automate your warehouse, supply chain and logistics needs, and to create programs that help you reduce your warehousing and shipping costs while increasing efficiencies.

Call for more information on how we can help meet your warehousing, fulfillment and delivery objectives.

EXHIBIT PROPERTY MANAGEMENT

Legacy offers a customizable online property management system for your booth properties stored at our facility. You can schedule and reserve properties, as well as place orders for booth work and shipping. Your various team members can reserve and schedule properties for use throughout the trade show year.

CRATING AND PACKAGING

LEGACY

Legacy provides full-service custom crating and packing for high-value products and trade show exhibits, and for shipment by land, sea or air.

Our custom crating group designs, engineers and constructs quality crates and packing materials to protect your valuable and sensitive shipments. CAD drawings of your proposed crate(s) will be available during the engineering process for your review and approval prior to build.

Crating services include custom skids and containers for domestic or overseas transport; reusable crates for trade show exhibits and electronics; heavy duty crates for oversize equipment; one-way crates and more.
Crate styles include foam lined crates, open slat style, corrugated sleeve/wood base combination. We custom design any size or style crating solution to meet your specific requirements and to keep your goods in excellent condition during transportation.

CUSTOM CRATES FOR ANYWHERE IN THE WORLD

As your need for worldwide shipping increases, so does your need for expert solutions. Legacy's experienced team can crate, load and secure ocean freight containers as well as assure your transportation needs are met in a safe and timely manner.

Our crates are fabricated only with heat-treated lumber to assure compliance with increased regulations worldwide. As requirements change for international shipments, Legacy responds with up-to-date compliance measures and materials.

Legacy is USDA certified and we provide all the necessary certificates and stamps for transport anywhere in the world, and in compliance with ISPM 15 protocol.

Our expertise includes meeting all government and international regulations for preparation and transportation of hazardous materials, including preparation of certifications and statements to assure complete compliance.

PACKAGING

An array of packaging services is available for domestic and international shipments. Vacuum packing (to MIL-B-131), also known as Method II, Method 50, Vapor Packing and Barrier Bag Packing, is available for overseas shipments, high humidity destinations or for long-term storage. Sea van containerization, flat racking, palletizing and VCI (Volatile Corrosion Inhibitor) packaging and protection from corrosion and rust is available.

CRATING AND PACKAGING

LEGACY

ON-SITE CRATING AND PACKING

We can bring tools and a crew to your site. Our craftsmen arrive fully equipped in their mobile crating unit to build your custom crate and pack right at your facility. We can also pre-fabricate at our facility, then pack at your site.

CLEAN ROOM CRATE SERVICE

Legacy combines its rigging expertise with its crating expertise to remove equipment from clean room environments, crate and package it, then transport it to your specified location.

Legacy has dedicated in-house crate manufacturing facilities at its headquarters in San Jose, CA and also at its Chicago, IL location.

Call for more information on how we can help meet your crating, packaging and other logistics service objectives.

RIGGING AND INSTALLATION

LEGACY

Legacy's rigging, installation and de-installation projects span the world and industries, including semiconductor equipment installations and de-installs in fab rooms, aerospace systems and medical equipment in hospitals and clinics.

Legacy provides diverse and specialized turnkey heavy lift rigging and install/de-install services in response to client needs all over the world.

Driven by the changing designs and technical challenges of larger, heavier, more delicate and intricate electronic, medical and other high-value equipment, we strive to offer the state-of-the-art in heavy lift rigging and transport.

Our installation teams are specially trained for placing your specific equipment so your technicians simply power-up for final tests and configuration. Legacy professionals are very respectful of their role as your representative at customer facilities, clinics and hospitals, and they present your best image with a skillful and efficient execution.

Adherence to protocols and safety measures are also important components of our documented standard operating procedures.

Legacy install/de-install teams are equipped with the specialized tools and rigging equipment required for today's projects. We offer you the industry's most resourceful, experienced and service-oriented rigging professionals.

Project management services are also available to oversee installation teams at multiple sites with a consistent process so your final testing and configuration is straightforward.

From initial planning to final completion, Legacy's transportation and on-site installation professionals ensure safe, efficient and timely implementation of your high-value medical, semiconductor, aerospace, electronic or other specialized equipment.

MOBILE EXHIBITS AND TOURS

LEGACY

Take your products and demos directly to your customers and prospects, control your messaging and environment, and close more sales faster with a mobile exhibit program from Legacy.

Legacy offers you one of the most effective and innovative tools to market and sell directly to your buyers because you go directly to them; you meet at their convenience, with no distractions.

A self-contained mobile exhibit unit, with custom interior environment and high-impact exterior branding, lets you debut new products, gain market awareness, demo to targeted groups where and when you want to – at the customer facility, a sporting event, a distributor location, virtually anywhere. You have all the flexibility and control.

SHORTEN YOUR SALES CYCLE AND EARN MORE REVENUE

Companies employing a mobile exhibit marketing program have significantly shortened their sales cycles, discovered new customers, and earned considerably more revenue by meeting with customers and prospects in the one-on-one, controlled environment offered by a mobile program.

Mobile exhibit marketing tours build brand awareness. A start up company will quickly gain more market presence and visibility, as well as revenue, with a mobile tour.

Buyers of all types gain the benefit of hands-on experience with your products, and direct communication with your representatives. The personal interaction and engagement of a mobile exhibit tour virtually guarantee a positive impact to the bottom line and a well-designed tour assures success.

PROGRAM HIGHLIGHTS

- Turnkey trailer customization – our designers, engineers and builders customize a wide range of trailer styles; services include interior environment design and exhibit fabrication, network design and installation, HVAC, electrical, interior and exterior graphics, etc.
- Tour operation and management – experienced event marketing staff as well as trained, professional tour operators assure your tour's success
- Project management – to oversee your custom interior design and build, as well as interior and exterior graphics; assure quality as well as timely completion and ongoing performance excellence
- Tour scheduling – a single point of contact gives you scheduling efficiency and maximum value
- Site logistics – planning, site selection and inspection, permits as necessary, customs documentation for Canadian site visits

MOBILE EXHIBITS AND TOURS

LEGACY

Improve your sales, add value to your brand, gain customer confidence, increase awareness and market share. All of these objectives can be achieved by taking your show on the road.

Contact us to learn more about how to boost your sales and marketing initiatives with our mobile marketing program. For more information, visit **www.legacytsi.com/mobile**.
