企业简介
INTRODUCTION

专业制造 品质更高
PROFESSIONAL MANUFACTURER OF HIGHER QUALITY

专业制造 品质更高
PROFESSIONAL MANUFACTURER OF HIGHER QUALITY

佛山市远兴鸿焊管机械模具有限公司是一家专业生产不锈钢制管机、抛光机、焊管模具、高频焊管模具等专业生产厂家，通过了ISO9001:2000国际标准质量体系认证。本公司位于广东省佛山市南海区狮山工业园内，南临全国著名的不锈钢装饰生产基地（广东省佛山市澜石镇），北与国际大都会广州接壤，地理位置十分优越，交通非常便利。

我们引进先进的生产设备和科学的管理及一流的专业人才，保证了产品的品质；公司以“诚信、求实、创新、卓越”为企业精神；“以人为本，以市场为导向，以质量为标准，以发展为目标”的企业发展理念，不断为客户提供优质的产品和满意的服务。

经过多年来的不懈努力及发展壮大，本公司已经成为华南地区颇具规模的机械和模具生产厂家之一。在广大客户的信赖和支持下，市场占有率和信誉度优势彰显，并在山东、无锡、温州、余姚、包头、福建等地区设立售后服务部，生产的产品远销全国各地及东南亚、中东地区。

佛山市远兴鸿焊管机械模具有限公司欢迎新老客户携手合作，共创辉煌。力求把品质优势发挥到新的高度，为不锈钢制造业作出更大的贡献。

Foshan Yuan Xing Hong Stainless Steel Pipe Making Mould & Machinery Co., Ltd is one of the leading manufacturers and exporters, specializing in manufacturing the Stainless Steel Pipe Making Machine, Tube Mill, Stainless Steel Welded Mould/ Rolls, Bright Annealing Line, Pipe Welding Machine, Polishing Machine etc. Our company is for more than 15,000 square meters and located in Foshan city (near Guangzhou), which is the stainless steel production center in China.

Having imported the advanced equipment and scientific management as well as technical talent from abroad, the company takes the enterprise spirit of "Integrity, pragmatics, innovation and excellence" and takes the enterprise development philosophy "take people as foundation, market as orientation, cost as core, quality as standard, innovation as guarantee and development as goal", constantly providing customers with high quality and best service.

With the persistent effort and steady development, our factory has become one of the biggest machinery and mould manufacturers in China. Based on the trust and support of many customers, we have owned the most Chinese markets, and have 7 after-sale services in many big cities, such as Shandong, Wuxi, Wenzhou, Yuyao, Baotou and Fujian etc. What's more, we have established the branch office and after-sale service in Hanoi, Vietnam. Our products enjoy popularity in Southeast Asia and Middle East Area.

Foshan Yuan Xing Hong Stainless Steel Pipe Making Mould & Machinery Co., Ltd looks forward to entering co-operation with new and old customers for mutual glorious business, aiming to perfect quality and contributing greatly to stainless steel manufacturing field.

全新标准现代化厂房，占地面积1万5千方
New modern workshop with area of 15,000 square meter

企业文化 Enterprise Culture
企业观念——专业·专注·创新·卓越

专业制造 品质更高
PROFESSIONAL MANUFACTURER OF HIGHER QUALITY

经营理念 Management Concept

为客户创造效益、为员工创造机会、为企业创造效益

经营理念——为客户创造价值、为员工创造机会、为企业创造效益

做事踏实，发现问题及时解决，我们从管理层到生产线员工，为企业创造高质量、高效益的品牌，我们注重人才的使用及培养，使企业成为员工成长的平台，人人齐努力，奋发成英才。

质量观念——专业制造，品质更高

品质好是企业兴旺的根本，顾客合作的关键，持续发展的生命线。我们坚持品质第一的认识，全员一丝不苟，严把关，为市场提供优质的产品。

产品观念——不断更新技术，涌现更佳方案

世界在进步，万物在完善，我们适应市场，创新市场，领先市场，在满足顾客需求时寻求最佳技术及解决方案，使我们的产品比别人更胜一筹，先行一步。

客户观念——以客为先，市场共赢

我们想顾客所想，先顾客所做，努力为客户创造价值，凡事以客户为先，创造用户、经销商、生产者三赢。

服务观念——做行业专家，解顾客难题

只有做好行业专家，才能为顾客作出指导；只有善解技术难题，才能让顾客感到满意。我们不断学习不断进步，在服务中做出专业特色。

营销服务 Sale Service
 真诚服务客户，品质赢取市场

专业制造 品质更高
 PROFESSIONAL MANUFACTURER OF HIGHER QUALITY

营销与服务—坚持以市场为导向的市场理念

营销拓展既是我们的目标，也是我们的动力，我们努力执行有效的营销策略和开拓营销网络，建立全面的服务体系，提供完善到位的售后服务，让广大客户能共同分享我们的品牌战略成果。

Marketing and Service – Adhering to the market-oriented concept

Marketing Development is our goal and our motivity. We make great effort to carry out the market strategies, develop marketing network, establish the comprehensive service system and provide the perfect after-sell service, so that all customers can share our brand strategy.

科技创新 不断超越

公司架构 COMPANY STRUCTURE

完善的组织机构 铸造完美的企业

科学合理的组织 架构为企业发展奠定了扎实基础，保证了企业运营的高效性。

Perfect organization builds perfect enterprise

Scientific and reasonable architecture provides the solid foundation for the enterprises development and ensures high efficiency of enterprise's operation.

不锈钢装饰制管机 Pipe Making Machine for Decorative

金属锯 Metal Saw

金属锯、切割台产品结构紧凑易于操作，钢管切口无毛刺，液压控制升降，切割平顺，是生产工业管的理想切割工具。

It is easy to remove the sting of the pipe end, hydraulic driving to control up and down. It's the ideal cutting tool.

技术参数 Technical Parameters

型号 Type	水平轴直径 Horizontal axis diameter (mm)	立轴直径 Vertical diameter (mm)	制管直径 Pipe diameter (mm)	制管厚度 Pipe thickness (mm)	主电机功率 Major Power(KW)	机械总装尺寸(长x宽) Mechanical assembly size (length*width)
ZG30	30	25	Φ6 - Φ25	0.2 - 0.8	4KW	19.5mX1.0m
小ZG40	40	25	Φ6 - Φ32	0.2 - 0.1	5.5KW	20mX1.0m
ZG40	40	25	Φ9 - Φ51	0.2 - 1.5	7.5KW	21.5mX1.1m
大ZG40	40	25	Φ12 - Φ84	0.3 - 1.8	11KW	21.5mX1.1m
ZG50	50	30	Φ25 - Φ76	0.3 - 2.5	11KW	24mX1.2m
ZG60	60	40	Φ38 - Φ114	0.4 - 3.0	15KW	26mX1.4m
ZG80	80	50	Φ76 - Φ168	1.0 - 4.0	22KW	32mX2.5m
ZG100	100	60	Φ114 - Φ219	1.0 - 6.0	30KW	36mX2.5m
电热管焊机 Heater Plane	30	20	Φ5 - Φ16	0.2 - 1.0	4KW	17mX0.9m

主要用于装饰、制品、家电用不锈钢管及碳钢管的生产(本系列机组模具成型后拉出圆管、方管、矩形管，也可以生产椭圆管、半圆管、梅花管等各种异形管。)

自动化生产加工流程:

经开卷、打商标、成型、焊接、打磨、定径、校直、定尺、切断、接料等连续成型工艺。结构精细，操作简便，一流产品，远兴鸿制造。

Mainly to produce the SS. Pipes used for decorative products, such as: furniture, hand railing, household electric appliance etc. The machine not only can make the round pipe, but also can make the square pipe, rectangle pipe and the oval abnormal pipe.

Automatic production process:

Decoiler-Branding-Forming-Welding-Grinding-Sizing-Straightening-Length fixing-Cutting-Unloading etc.

不锈钢工业管制管机 Pipe Making Machine for Industrial

主要用于生产工业用不锈钢管。由于不锈钢焊管技术的成熟，在很多领域已经取代无缝管(如化工、医药、酒厂、石油、食品、汽车、造纸、空调等行业并得到广泛应用。)

自动化生产流程：经开卷、清洗装置、进料导向、成型、焊接、内焊整平、外焊缝打磨、整形定径、固熔处理、终定径、校直、探伤、喷码、定尺、切断(盘卷)、接料等连续成型工艺。结构精细，操作简便。

Mainly to produce the SS. Pipes used in industrial area. As for the mature technique of SS. Welded pipes, the seamless pipes has been replaced in many areas, such as chemical, medical, winery, oil, food, automobile, paper, airconditioner etc.

Automatic production process:Decoller-Cleaning equipment-Feeding Direction-Forming-Welding-Internal Welding Leveling-Outer Welding Grinding-Shaping & Sizing-Solid Solution Treatment-Final Sizing-Straightening-Detection-Marking-Length fixing-Cutting-Unloading etc.

技术参数 Technical Parameters

型号 Type	水平轴直径 Horizontal axis diameter (mm)	立轴直径 Vertical diameter (mm)	制管直径 Pipe diameter (mm)	制管厚度 Pipe thickness (mm)	主电机功率 Main Power(KW)	机械总装尺寸(长x宽) Mechanical assembly size (length*width)
ZG40	40	25	Φ8 - Φ51	0.5 - 2.0	前7.5KW 后5.5KW	29mX1.5m

ZG100	100	60	Φ114 - Φ219	1.0 - 6.0	前22KW 后22KW	43mX3.0m

不锈钢制管模具 Mould/Rolls for Stainless Steel Pipe

远兴鸿焊管模具装在制管机上使用，用于生产不锈钢型材，也可用于生产铜、铝、铁型材。该模具全部使用Cr12MoV和SKD11优质模具钢材料，经高精度数控设备加工，并采用特殊热处理，模具精度高，硬度达HRC63-65，质量可靠，使用寿命长。

Material: Cr12Mov or SKD11 or D2

Usage: to produce the SS pipe, Steel pipe, Copper pipe etc.

Heat treatment: special heat treatment

Hardness: HRC63-65

模具种类有：圆管模，方管模，梅花管模，圆头扁管模，椭圆管模，扇形管模，八方管模。还可以针对不同用户专门设计制造各种异形不锈钢型材模具。

Pipe Shapes: round pipe, square pipe, rectangle pipe and oval pipe etc.

不锈钢制管过程中经常产生拉伤、起皱、指甲纹鱼鳞纹、圆管失圆、型面不规则等缺陷。多年来，这些缺陷一直困扰业内人士。本公司经过多年的潜心研究，现在终于生产出“远兴鸿”高品质模具，解决了这些问题，给业内人士带来福音。

Our high quality mould can solve the problems caused in the process of making stainless steel pipe like scuffing,wrinking,nail lines fish-scale veins.

采用高档进口材料精制而成。具有很强的切削力、功效特快、耐用、光泽度高，均匀表面光洁无磨痕，达到8K效果，抛光后发出青光。内含高防锈材料成分，可延长产品的防锈寿命。
适用对象：适用于不锈钢管、铁管、铜、铝、锌等金属制品抛光，是高光亮度、高品质的最理想选择。
使用方法：配合油麻轮、布麻轮、风布轮使用。
These products are made by imported high quality materials. They are with strong cutting force, particularly high efficiency, durability, high glossiness, bright surface, no polishing scratch and reaching 8K effects. The finished products will show blue light after polishing. Besides, they contain anti-rust materials for longer anti-rust service life.
Application: suitable for stainless steel pipes, carbon steel pipes(iron pipes) as well as copper and aluminum hardware etc.
Usage: Used together with the Green Jute Wheel, Cloth Jute Wheel, White Cloth Wheel, Wind Cloth Wheel etc.

以进口高档布和国产优质布。采用自动化生产过程，所生产的绿油麻轮、白布轮、风布轮等耐高温，且在清除螺旋纹过程中，亮度和光洁度上会有更佳的效果。
千页轮以优质叶轮专用砂为原材料，厚度从8mm-700mm，粒度从240#-800#。
我们的产品广泛用于不锈钢管，铁管的磨削和抛光；还有五金、木材、塑料、陶瓷等抛磨行业。
Our products are extensively suitable for the grinding and polishing the stainless steel pipes, carbon steel pipes(iron pipes) as well as polishing and grinding industrial of hardware, wood, plastics and ceramics.

焊缝整平机
Welded Levelling Machine

焊缝整平设备是在线处理不锈钢焊管焊缝，同步对焊管内外焊缝反复碾压，使焊缝平滑与木材过筛，使有缝焊管无缝化更加突出焊管的优点。设备采用plc，比例液压自动控制，性能稳定，成材率高，安装方便，设置错误输出，和启动输入和制管生产线联动，是高级工业焊管必需的生产设备。

Welded Joint Levelling Equipment is used for on-line treatment of welded joints of stainless steel pipe, rolling on the inner and outer welded joints repeatedly to keep the joints smooth and make the welded pipe seamless. With PLC and auto control of ratio of hydraulic pressure, the performance is stable and the rate of production is high and it is easy to use. With error output setting, start input and coupling of pipe production line, it is indispensable for production of senior industrial welded pipes.

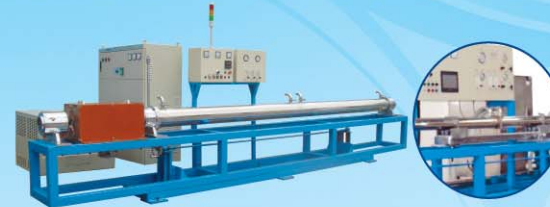

焊缝抗扭装置
Torque Resistant Device for Welding Line

不锈钢焊管生产线，焊管完成焊接后，焊缝经常走偏，此时就需要控制焊缝方向。焊缝抗扭装置是控制焊缝方向的理想装置，设备体积小、操作方便简单，一对轧辊对向旋转，轻易纠正焊缝方向。不会改变焊管管径。

On the production line of the stainless pipe welded pipe, the welded joint often deviates after the pipe is finished thus the direction of the welded joints should be control. The Welded Joint Torque Resistant Device is an ideal device to control the direction of the welded joint. Being easily used, the pair of rolls rotate reversely without change of the pipe diameter.

高效智能型机光亮固熔(退火)设备
High Efficiency Intelligent Fixing Fusing & Annealing Equipment

在线光亮固熔(退火)设备将不锈钢焊管在线加热至1050℃，随后置后氢气保护下快速冷却至100℃以下的专用设备。中频感应加热电源为新型DSP+IGBT结构，采用DSP全数字控制系统，设置有完善的自保护、自诊断功能，设备体积小、升温快、高效、节能、损耗小。根据不锈钢特性专门开发的感应器，比同类产品节能15%—20%。保护气体使用氢气，耗气量小，每分钟仅用几升。

On-Line Fixing & Fusing (Annealing) Equipment can heat the stainless steel welded pipe to 1050℃ then cool it to the temperature lower than 100℃ under the protection of hydrogen. The heating power supply of the intermediate frequency induction is the newest DSP +IGBT structure. With DSP digital control system, there are self protection and self diagnosis functions. With small volume, it heats pipes rapidly and efficiently with energy-saving and low-waste features. The especially developed inducer designed according to the features of stainless steel can save 15%-20% energy in contrast of other products of the same class. Using hydrogen as protective gas, it uses only a few litres of gas every minute.

高效节能型光亮固熔(退火)设备
High Efficiency Energy-saving Fixing Fusing & Annealing Equipment

节能、降低电能消耗;
环保、无需酸洗工序;
提高效率、降低劳动成本;
与高线退火相比, 占用空间更少;
钢管表面十分光亮, 不会产生鳞片;
钢管的直线条好, 变形现象减少到最低限度;
生产线直接出成品, 无须额外处理及机械加工过程。
Energy-saving, reduce consumption of electricity
Environmental, need not acid wash process
Efficiency improvement, reduce labour cost
Comparing with off-line annealing, it occupies less space
The surface of the steel pipe is smooth without squama
The steel pipe is straight without distortion
Finish the product directly without extra treatment or processing.

在线黑色固熔设备
On-Line Black Fusing Equipment

HHS系列在线黑色固熔处理设备是将不锈钢焊管在线加热至1050℃，随后快速用水冷却至室温。中频感应加热电源为新型DSP+IGBT结构，采用DSP全数字控制系统，设备有完善的自保护、自诊断功能。设备体积小、升温快、高效、节能、损耗小。根据不锈钢特性专门开发的感应器，比同类产品节能15%-20%。

HHS Series On-Line Black Fusing Treatment Equipment Can heat the stainless steel welded pipe to 1050℃ then cool it to the normal indoor temperature. The heating power supply of the intermediate frequency induction is the newest DSP+IGBT structure. With DSP digital control system, there are self protection and self diagnosis functions. With small volume, it heats pipes rapidly and efficiently with energy-saving and low-waste features. The especially developed inducer designed according to the features of stainless steel can save 15%-20% energy in contrast of other products of the same class.

平口机 End Facing/ Milling Machine

该机适用于管子端面铣削加工，以去除端面毛刺，使管子端面平整光洁、美观。该机采用气动夹紧，结构紧凑，操作方便。
This machine is to move the bur of the ends of the pipes, to make the ends more smooth. The pipes can be stainless steel pipe, carbon steel pipe, copper pipe etc. and the diameter can be 9.5mm-133mm.

压花机 Embossing Machine

该机采用国外先进技术，可对不锈钢，铁，铝等管材进行加工。管径在(Φ12-Φ114毫米)，具有各种不同规格的模具满足客户的需求。

This machine is used of foreign advanced technology, stainless steel, iron, aluminum tubes for a variety of processing. Machinable the scope of the diameter (Φ12-Φ114mm), thickness (0.3-2mm)
