

WE BRING TECHNOLOGY TO YOU.

2 μ IGER

PRECISION HIGH SPEED MILLING

30'000 to 40'000 rpm spindle

3 or 5 axes

Heidenhain controls iTNC 530 and iTNC 620

HSP 443: 400 x 400 x 300 mm

HSP 643: 650 x 420 x 350 mm

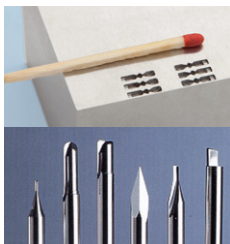

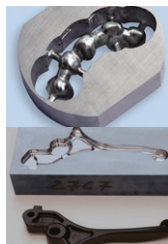

HSP 1000: 1000 x 600 x 400 mm

F2V: 400 x 300 x 270 mm

The only machine on the market switchable from manual to CNC.

HIGH PRECISION CUTTER GRINDER

for single and double lips carbide milling tools

CNC TURNING AND MILLING

CNC MACINING CENTERS VERTICAL TURNING

CONVENTIONAL LATHE AND MILLING MACHINES

BIG, GANTRY TYPE LARGE MILLING MACHINES from
2 m and up to 10 meters or more

LARGE CNC LATHES up to 5 meters

MANUAL LATHE from 1 meter to 10 meters

CNC LATHE from 400 mm to 12 meters

COMEL is producing quality lathe for over 50 years,
family business devoted to produce all their ma-
chines in Italy and with high quality standards.

HIGH PRECISION COLLETS AND TOOL HOLDERS

SURFACE GRINDING

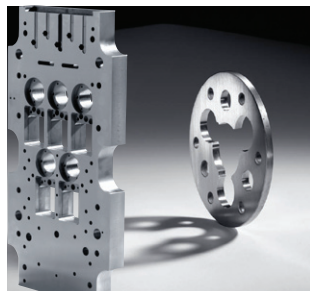

Grinding range from 400 x 250 mm
to 5'000 x 2'200 mm

LARGE GANTRY MILLING MACHINES

JIG GRINDING

Sizes 300 x 500, 700 x 500 and 1300 x 800 mm

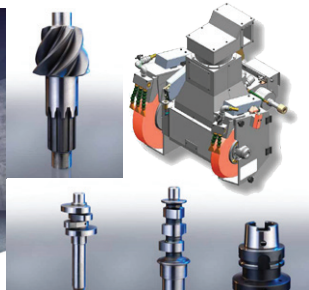

MICRO EDM MILLING
MICRO DRILLING
MICRO DIE SINKING

UNIVERSAL AND PRODUCTION CYLINDRICAL GRINDING

IG-FS, IG-FM, IG-FL and IG-FXL
Universal CNC cylindrical grinding machines
Grinding length of 500, 800, 1000 and 1500 mm

IG-IS, IG-IM and IG-IL
CNC Internal grinding machines with B-axis
Grinding length from 170 to 300 mm

HIGH PRODUCTION SURFACE PROCESSING

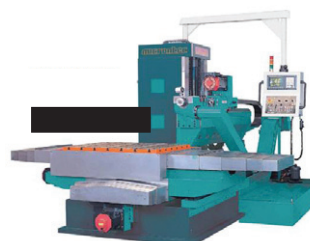

1R / 3R / 4R Lapping machines
AC Line Double disc fine grinding / polishing
DDG Through feed double disc grinding
FE Grinding and deburring
MICRON Creep feed and profile surface grinding
VOUMARD Internal grinding machines

DEEP HOLE DRILLING

GUN DRILLING

One spindle and multi spindles

X-Tech Precision is specialized in the distribution, sales, service and application support for high precision machines with most advanced technologies. Our strength is our technical knowledge and experience in the field of high precision components manufacturing.

Our competence are:

- Solution oriented and assistance in your purchase decisions on a high technical level and to provide you with the best suited machine, configured according to your specific needs.
- Full capability of process development for new projects or improvement of your actual processes for optimized efficiency of your equipment.
- Specific training for your operators, maintenance or programmers.
- Efficient service and maintenance of your valuable equipment.

With a coordination office in Switzerland, we are near to your suppliers and we speak their language.

WE BRING TECHNOLOGY TO YOU.
