

## PERSONAL APPROACH. SUPERIOR RESULTS.

### About Us...

Automated Logistics Systems, LLC. was established in 1992. With roots back to the 1920s, ALS has become one of the top transportation brokers and 3PL's in the industry. We manage our customers shipments for all modes of transportation, providing superior customer service, and getting your cargo to its destination on-time and within budget.

No matter how small or how large the project, ALS has the resources to ensure a quality transportation solution every time.

### What sets us apart...

- Personalized customer service available 24/7.
- We are experts in project management. Our project management group specializes in complex, high-value, heavy-lift and over-dimensional project cargo from entire plant moves to single line moves.
- Truck capacity anywhere in North America for any mode of transportation at any hour of the day.
- Facilities in Jackson, MI and Laredo, TX offering consolidation and warehousing for cost effective and timely service throughout North America.
- Customized supply chain network analysis to reduce transportation and administration cost while improving customer service.
- Additional insurance coverage available including Mexico cargo liability.
