Introduction

Established in 1998, and mainly engaged in manufacturing, researching & developing, and dealing in all kinds of computer parts and a whole series capacitors and the other semiconductors, **SHENZHEN TOPMAY ELECTRONIC CO., LT**D. is an industrial enterprise with independent corporate entity and has its headquarters located at the flourishing center of Shenzhen, a city has been recognized as the frontier of China economy. After years' persistent hard work by all the companions, **Topmay** has now developed to be a famous electronic company that promotes very quickly with the most advanced technology.

Topmay has two large factories by joint venture. The one in Dongguan produces computer parts, and the other in Jiangsu makes capacitors and the other semiconductors. Years' continuous development now provides us with standard workshop of 23,000 square meters' and 1,448 employees: our Dongguan factory has 12,000 square meters, 6 production lines and 862 employees, while Jiangsu factory has 11,000 square meters, 12 production lines and 586 employees. (Till May 1st, 2005)

Culture

Trustworthiness, **hardworking** and **innovation** enterprise culture has been planting a root of all the Topmay's management activities.

The **spirit-customer** is highest is the core of all the activities, which also get the most adequate embodiment in our business principles. Once promises something, fulfill it; customer is always the highest. Topmay always consider these principles as the standards in the process in inviting employees and judging the staff's achievement. We make an effort to predict the changing requirement of guests and concentrate on the development of new service to satisfy these needs.

We deeply understand the fierce competition and fast changing, and the reason-proud causes lose, while modest brings benefit. The competition of our profession field is fierce, so we seek and explore the relationship with customers aggressively. However, we never slander our

rivals but take orders of fair competition instead. Candor and trustworthiness is the core of our business principles. We expect our staff maintain the same high moral level both on the work and private living.

Product

Presently, **Topmay** products mainly include the following two sections:

(1) The whole series **capacitors** that can be divided into 5 major types of more than 3,000 species. Such as: Multilayer Ceramic Capacitor (Radial, Axial, and SMD), Ceramic Disc Capacitors(Low and High Voltage), Aluminum Electrolytic Capacitor (Radial，Axial, and SMD), Film Capacitor (Polyester, Polypropylene and Metallized), Tantalum Capacitor (Radial and SMD), and etc. Among them, Metallized Polypropylene Film X2 Capacitor is the predominant best seller, especially in European and American market.

(2) The whole series **computer parts**, such as Mouses, Keyboards, Cases, Power Supply, Lan Cards, VGA Cards, Sound Cards, Internal Fax Modems, USB Cards, 1394 Cards, TV Cards, TV Boxes, Switches, Router, ADSL MODEM, Webcams, and etc. Besides, the newly produced USB Flash Driver and MP3 series now again are welcomed with open arms of our new and old customers from all over the world.

Qualification

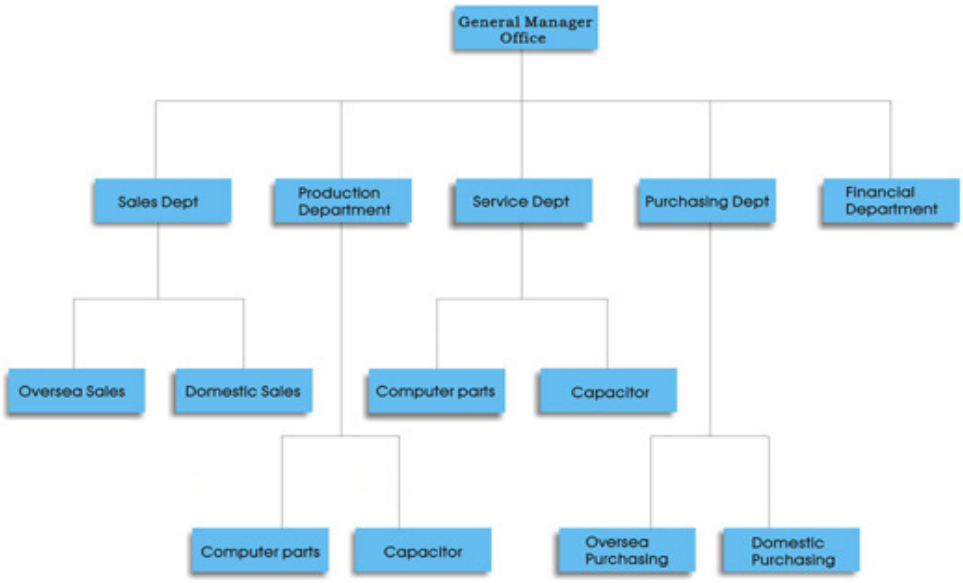
Topmay holds an idea that **the products quality is the life of a company**. In order to serve our customers better, and to enhance the products grade, Topmay has invested a lot to the application of kinds of international system and quality certifications, and have achieved the following: **ISO9001: 2000, ISO14001, TS16949, Greatwall, CCC, CE, MIC, SA, UL, FCC, TUV, SGS and etc**. **Topmay** insist on a tenet that people should be oriented, efficiency is the priority, quality should be emphasized, and credit is the uppermost. And we try our best to exploit and to innovate, and keep improving our production technology. So now we gradually grow up to be an outstanding one in our industry. **Topmay** products are of numerous varieties, compete species, super quality, competitive price and stable function, and all of their indexes have reached the international advanced level.

Business

Our international business department is responsible for the company's and the products' publicity of overseas, and expand to overseas business actively.

Nowadays, our products are distributed to dozens of counties and regions far away such as **Europe and America, Southeast Asia, Middle East, Africa, and etc.** Perfect marketing network with concentrated effort of sale service, lay a good foundation of the expanding the company and maintaining guests sources.

Structure



Expectation
