

Abrasive Blast Systems

*Abrasive Blasting with the
Engineered Difference*

Mobile Blast & Recovery Systems

Abrasive Blast Systems' popular Mobile Blast and Recovery Systems are the most versatile, general purpose blast systems available. These all-in-one blast & recovery systems allow operators to work on-location with less mess, and minimize interruptions to nearby operations and processes.

With a variety of sizes and features, these machines are engineered for versatility and have been utilized across the industry spectrum and for just about every application imaginable.

- Pressure & Suction Systems Available
- Easy-To-Use Operation
- Wide Range of Abrasives Can Be Used
- Built-In Abrasive Recycling & Dust Collection Systems
- Operation with an External Gun or Separate Cabinet

Blast Cabinets

Abrasive Blast Systems' Blast & Recovery Cabinets are the most versatile, efficient, and durable blast cabinets on the market today. Our standard cabinet series are available in two system types (pressure or suction), and a variety of sizes. All ABS cabinets come with a variety of premium features and can be customized for any application with add-on items and/or packages.

- Pressure & Suction Systems Available
- Easy to Setup & Operate
- Variety of Application-Centered Standard Series
- Safe & Comfortable Operation
- Operational Consistency & Durability
- Highly Efficient Reclaim & Dust Collection System
- Multiple Automation & Advanced Controls Options

Engineered to Blast. Built to Last.

Custom Blast Systems

When a customer needs a blast system for a specific operation or process, we turn to our experienced, in-house engineering team. Our team works with the customer to determine the ideal solution. ABS has designed and built hundreds of custom machines for some of the largest organizations in the world. We have the experience and the determination to ensure that every custom machine is built to meet the customer's specific requirements, on-time and on-budget.

- Robotic Blast Systems
- Automated & Semi-Automated Blast Systems
- Blast Systems for Proprietary Processes
- Continuous, Indexing, or Batch Process Systems
- Incorporated Monorail, Conveyor, or Crane Systems

Blast Room Solutions

Abrasive Blast Systems has four decades of experience designing, engineering, and installing blast rooms with varying requirements for size, complexity, and schedule. Whether you're looking for a small, pre-fabricated blast room or a large, custom room, ABS has your solution.

- Custom On-Site Installation Blast Rooms
- Pre-Fabricated, Turnkey Blast Rooms
- Automated and Robotic Blasting Systems
- Multiple Reclaim Flooring System Options
- Highly Engineered Abrasive Recycling & Dust Collection Systems
