ODIN ENGINEERING LTD.

**UK
Manufacturers
of Broaching
Machines for
over 25 years**

ODIN ENGINEERING LTD.

- Odin Engineering Ltd. was incorporated in 1989 by Tony Barker BSc Eng.
- The first broaching machine manufactured by Odin was an Odin 16 ton x 1600 stroke machine for Eaton.
- Throughout the 90's Odin manufactured and supplied over 60 new/rebuilt machines to all sectors including aerospace, automotive, oil and gas and educational.
- 1991 Tony opened a sub contract machining facility for large slideway/surface grinding.
- Over the years the company grew from strength to strength gaining a renowned reputation
- Odin now stands as the ONLY UK manufacturer of broaching machines

ODIN ENGINEERING LTD.

- In 2012 Miss Emily Barker daughter of Mr Tony Barker took over Odin Engineering.
- Since the new directorship Emily has diversified the company into new sectors
- Odin Engineering now supplies new globally renowned CNC machinery ranging from basic manual lathes through to 5 axis machining centres.
- Odin also supplies grinding supplies inclusive of abrasives along with Cobra Carbide/Kyocera tooling
