ABOUT US

Located in Southeastern Iowa, Oskaloosa Engineering & Manufacturing is a 68,000 sq. ft. state-of-the-art machine shop specializing in the machining of various metal products. OEM was founded in 1959 by four innovative thinkers and remains a tight-knit, family-owned company today. For over 50 years, OEM has been committed to meet or exceed our customers' requirements and to provide continuous improvement in our processes by:

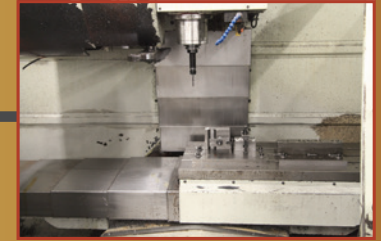

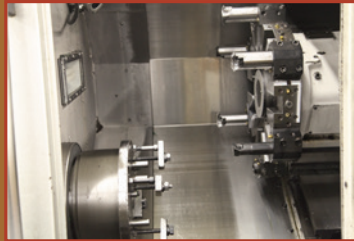

- Providing superior service to every customer in all phases of product distribution.
- Nurturing an atmosphere among employees at all levels so self-respect, understanding, compassion, friendship, and courtesy are incorporated into our way of life, thus attaining the highest level of employee satisfaction.
- Allowing for a style of operation promoting a level of service exceeding the expectations of the business community, thus reaching our goal of attaining the highest level of customer satisfaction.

Oskaloosa Engineering & Manufacturing will earn your business through our reputation and will retain your business by delivering on expectations in a timely manner. We will provide competitive lead times and pricing while striving to keep your operations running smoothly.
