Solutions provider for your industry needs, since 1988

About JEMS

JEMS is a unique experienced solution provider for industry needs with professional engineering technical service support and technical trading & contracting expertise since 1988 in Asia with special emphasis on Arabian Gulf.

Our core business includes trading & contracting of heavy earthmoving equipment, cranes, generators, fuelless, fuelcell, solar and wind power generators.

We manufacture and supply alternative energy equipments for commercial and domestic needs.

Head Office in Tamilnadu-South India: Our Branches in Bahrain-Salmabad, Saudi-Dammam, Qatar-Doha, UAE-Dubai, Singapore-Jurong and China-Shanghai.

Our Vision

Our vision is to set standards of excellence as a specialist in providing professional engineering & technical service support and to be the leading manufacturer and supplier of custom design industrial & commercial hardware/software products.

Our Mission

Our mission is to become the No:1 in the Middle East. Our pledge is to establish lasting relationships with our customers by exceeding their expectations and gaining their trust through exceptional performance in industries engineering & technical professional service support and also to supply from A to Z parts with responsive and challenging quality reliable service at a competitive offer.

Trading & Contracting

We trade, contract import, export & supply a wide range of used or new industrial heavy equipment, machinery, materials and parts to many industries for the last 22 years.

Our focus on industry includes:

Material Handling Equipments & all Cranes

Earth Moving Heavy Equipments & Parts

Marine Industry Equipments & Machinery

Generators, Parts, Power Plant & Machinery

Petro-Chemical Industry Machinery & Parts

Aluminum, Wood, Glass & Marble Machinery

Slaughtering House Equipments & Devices

Automotive Garage Equipment & Parts

Industrial Machinery, Equipments & Parts

Alternative Energy Equipments & Machinery

Bio-Medical & Healthcare Equipment

Fiber Glass, Rubber & Plastics Machinery

Printing, Publishing & Packing Machinery

Processing & Packing Industry Machinery

Tyre Retread & Recycling Plant Machinery

Trucks & Trailer Transmission & Equipments

I T Industry Backup Heavy Duty UPS-HPS.

Media & Advertisement Industry Equipments

Technical Services

- 1 Electronic, Electrical, Mechanical, Hydraulic Repairs, Upgrades, Maintenance, Recondition Overhauling, Calibration , Instrumentation.
- 2 Earth Moving Heavy Equipments, Machineries & Factory Machineries Condition Monitoring, Evaluation, Re-valuation & Chartered Engineering.
- 3 Mobile Heavy Equipments Annual Traffic Pass Pre-Inspection & Passing, Quality Assurance Test Certification by BV, TUV, Lloyds, UV, UKAS .
- 4 All kinds of Material Handling Equipments, Cranes, Materials & Passenger Hoists & Lift Load Test and Performance Testing certificate.
- 5 A to Z light & heavy Equipments & Machinery, Circuit Diagrams, Parts & Service Manuals, Machine Software & Hardware supply.

Our Main Focus

- 1 Heavy Equipments Machinery Parts Trading, Manufacturing, Import & Export
- 2 Cranes Safety Limit Computer LMI-SLI-PAT-ACS Supply, Installation & Calibration
- 3 Generators, Engines, Alternators, Boilers, Furnace, Controllers Supply & Services
- 4 Marine Off Shore On Shore Equipments Machineries & Devices Supply & Services
- 5 Construction Pile foundation Rigger, Hammer & Tool Supply, Repairs & Recondition
- 6 Truck, Trailer Electro-Pneumatic- Hydraulic Transmission & Engine EFI Supply
- 7 Machine Shop Lathe Works, Aluminium, Wood, Glass, Marble PLC/CNC Machinery
- 8 Low/High Lift Ariel Access Plat Form, Rescue & Fire Fight truck Supply & Services
- 9 Reinforcement, Steel Fabrications, Profile cutting PLC/CNC Machinery & Tool

A to Z Spare Parts

JEMS holds the distinction for the past 24 years in tailor made & custom design parts, consumables, accessories, tool, software & hardware supplies. We provide, arrange and manufacture intelligent solutions with warranted competitive offer.

We provide a wide variety of industrial supplies & spare parts. We are capable of offering supreme quality A to Z industrial & commercial machinery equipment & parts even older than 50 years as per your specification & requirements .

Electronic devices and components, Electrical parts & components, Mechanical parts & Components, Hydraulic systems & parts, Pneumatic tools & parts

Spare Parts

Our industrial spare parts products are carefully engineered with the tightest specifications and manufactured to the highest quality standards.

Industrial Components

We have an extensive range of electrical, electronic and industrial components. We offer a true alternative to OEM industrial spare parts and components.

Material handling equipment

Our main focus is to make available all types of reliable and cost-effective material handling machines, equipment and spare parts.

China Outsourcing

China Outsourcing is a way for many companies to cut cost by moving production to another country. We also provide solutions to your company's outsourcing needs.

Contract Manufacturing

With access to more than 2,000 manufacturing plants throughout China we can easily help you to give sub-contract to a manufacturer while you own the product designs.

Periodical maintenance

JEMS offers customized maintenance programs for your operation. From compliance and repairs to preventative & periodical maintenance, JEMS has the right maintenance program for your application, including:

- Maintenance, Compliance Programs
- Preventative Maintenance Programs
- Reliability Based Maintenance Programs

Inspections

Our professionals can review a machine's history and maintenance records, perform a thorough inspection of current condition, and provide the documentation for compliance with inspection requirements.

In addition, if any deficiencies are identified our technicians are prepared to recommend the best repair solution to keep you up and running.

Erection & Commission

Installation of Tower Crane & Passenger Hoists requires experience and attention to detail to prevent potentially dangerous safety issues. JEMS offers unparalleled experience and expertise in start-up Installation of the following:

- Electrification Systems
- Modernizations
- Relocations

Load Testing

We test the Cranes over a range of loads, monitoring and data gathering constantly for 2 to 4 hours. We eventually test the load capacity of the Crane, giving the machine a thorough workout in the process.

Features:

- Compact design
- Corrosion resistant
- Remote, touch type control
- Expandable modular designs

Custom Design Manufacture

JEMS provides Custom Machine Design Services for any mechanical design, mechanism design or manufacturing tool design application. Custom Machine Design Services may apply to industrial product design as well as manufacturing tools and systems. With many decades of experience in Mechanical Engineering Design Services, our staff delivers a broad knowledge of Machine Design to any project.

Areas of Expertise

- Mechanical & Mechanism Design
- Tool Design Jigs / Fixtures / Gages
- Lifting Tools / Overhead Lift Tools
- Materials Handling Tool Design
- Alignment Tool Design
- Assembly Tool Design including
- Automated Assembly Tools
- Manual Tools / Automated Tools
- Machine Design of Pneumatic Tools

Manufacturing Industries

- General Manufacturing
- Industrial Equipment
- Industrial Products
- Commercial Products
- Semiconductor Tools
- Telecommunications Manufacturing
- Electronics Manufacturing
- Nanotechnology Tools
- Medical Equipment

Research & Development

JEMS intends to create world-class physical and intellectual capabilities, with some of the leading Technicians bolstering its innovation agenda. The Company focuses its attention to fundamental R&D for sustainability of its business, advanced technical services, enhancing internal capability to develop basic engineering packages, and in building capabilities. With our belief in modernization as a trait of growth, we have installed a separate research and development unit.

Committed to excellence

Exceptional performance

We provide

We provide business consulting, research, planning and training in all areas of business. We have teams that specialize in all the different aspects of business. We are large enough to handle all your business needs and small enough to provide personalized service. We do our best to provide value to our customers.

We Arrange

We Arrange Office / Warehouse Spaces	Buy / Sell Existing & Running Business

Establishment, L.L.C, W.L.L, SPC Formation	Providing Licenses for GCC Nationals
Trade / Professional / Industrial License	Consultancy for setting up new Business
Off shores / Free zones company formation	We arrange for any type of activities relating to Business Setups
We also provide assistance in obtaining Auditing & Legal Consultancy	Audit / External and Internal Audit / Financial and Management Information
Human Resource Management / Manpower Planning / Executive Recruitment	Corporate Structuring & Development, Conversion / Floating / Mergers / Acquisitions

We Support

We will strive to implement a long term relationship with our clients, based on safety, quality, timely service and an anticipation of their needs. Our pledge is to establish lasting relationships with our customers by exceeding their expectations and gaining their trust through exceptional performance.

Consultancy

We provide business consulting, management consulting and marketing consulting as well as consulting in all other areas of business.

Our business consultants provide sound business advice based on extensive real world business experience and knowledge. We are one of the few consulting firms that offer consulting in all aspects of business.

We Sell

We import and sell all kinds of Industrial and Commercial Machineries & Equipments with warranty & gurantee and we are a complete sales, service and support center for all your machinery & equipment needs.

We Buy

We import and sell all types of Industrial Machines & Equipments with warranty. And we are complete sales, service and support center for all of your Industrial machineries & equipment needs. We provide 24/7 support and unmatched attention to the needs of our clients.

We Exchange

We can also turn your Surplus Machinery & Assets to cash. We can get you cash for your equipment or take trade-ins to minimize your capital outlay for late model machines. We will supply you with quality machinery to match your budget, either new, used and/or rebuilt. We can also dispose of your surplus machinery for the best price internationally. We can dismantle the entire plants or sell your surplus equipment as you need.

We Hire & Rent

JEMS provides all ranges of machinery & equipment hire solution for all types of industries in Bahrain. We have the service and transport infrastructure required to ensure reliable on time delivery of your equipment to any location in Bahrain.

Intelligent Solutions

Our major customers in the automotive, industrial, telecom, electronics, computing, healthcare, lifestyle and postal sectors benefit from JEMS detailed knowledge and understanding of industries.

To meet the needs of large enterprises, our teams work closely with you to develop solutions that help optimise and manage infrastructure, processes and technologies. With years of experience in reducing logistic costs and inventory, we use the latest technologies to streamline the supply chain, ensuring the fastest, most reliable route from suppliers to end-customers.

We do market survey

Our market surveys include marketing research methods such as online surveys, phone surveys, focus groups, executive interviews, depth interviews, and online discussion forums . Market research surveys are often designed for companies and firms to assess customer attitudes and behaviours for building or revising a marketing strategy, and creating a marketing plan. Market and customer surveys can be either qualitative or quantitative.

We do feasibility study

The main objective of feasibility study is to compare the cost required in implementing a solution to the proposed value that solution would create. In other words, "does this proposed solution make sense from a financial standpoint?" In determining this cost/value equation, the feasibility study should look at topics such as the background of a company, the products and services it offers and how those products are delivered.

We arrange partner for your business

Through Business Partner Searches and comprehensive target group oriented researches we get you in touch with competent business partners in China, such as sales and trading partners, customers or manufacturers. You will have a personal contact person at any destination who accesses our network on your behalf. He will build up the first contact and write an approach letter to the potential business partner in the national language which will open you the door to a new market.

We supply technical & clerical man power

JEMS provides technical manpower sourcing and supply services to production, processing and manufacturing plant & factory. We have vast experience in the fields of engineering & technical periodical, preventive and breakdown maintenance service, instrumentation and calibration in petrochemical, refinery and other process industries (onshore and offshore) and we provide value addition in technical manpower sourcing and supply.
