

LaMott Enterprises, Inc.

where the customer comes first

3905 California St. NE Minneapolis, MN 55421-3511 phone: 763-781-0001 fax: 763-781-0002

Your source for
complete parts
or specific operations.

long run - short run

Our goal is to
make *you* successful.

LaMott Enterprises

At LaMott Enterprises we perform short and long run production of parts and assemblies. We also perform single operation jobs in turning, milling, grinding and general machining.

Whether you need complete parts or single operations, you can depend on us for excellent quality and timely delivery on all types of jobs.

QUALITY

We have the latest tooling and inspection systems. Our quality systems are compliant with ISO- 9000, QS-9000, and MIL-I-45208.

We hold tolerances down to .000020" and surface finishes to 4 micro.

Your satisfaction is our first priority.

Our team building approach and our extensive industry associations help us find solutions for your most challenging manufacturing problems.

If you're looking for the right blend of new technology, manufacturing expertise, professionalism and personal service, you need look no further than

... **LaMott Enterprises.**

SERVICE

Customer service is our most important product. We are small enough to provide personal service on every job. We view each request for quote or purchase order as an opportunity to prove that you have come to the right place. Your questions will be answered quickly and in detail.

We are committed to completing your projects
as promised, on time, and to print.

We save you valuable time by eliminating rejects and quality problems resulting in lower cost to your company. Try us and we will prove to you that we can consistently exceed your expectations - on every lot, on every job.

***One call . . .
and we'll handle it all for you.***

We support all of our services with engineering capabilities that can help to lower your cost without sacrificing quality. With an established long term track record of repeatability through process control, you know you'll get the same part every time. We have experience with most of the materials in use today.

"WHERE THE CUSTOMER COMES FIRST"

We have been building partnerships by providing quality parts and services since 1994.

FACILITIES

Our new and larger building allows us to provide enhanced services and a more efficient work flow to *save you money.*

Centrally located in the Twin Cities, we have the equipment and capability to handle your jobs efficiently.

LaMott Enterprises is your single source, one stop solution for:

CNC Turning

CNC Milling
