- they work in every position
- blades can be re-sharpened

**F145N**

### **SHEARS WITH BATTERY...**

are equipped with the best batteries and can cut cables up to 130 mm

**TC55F42DE**

### **PORTABLE ELECTRIC SHEARS 230V...**

to cut cables and ropes up to 55 mm

### **SHEARS WITH POWER PACK ...**

for heavy and repetitive work can cut cables and ropes up to 180 mm

**TC180DE**

## UNWINDERS

Tramev Srl produces since 1977 support, rotation and motion devices for hanks and swift for wire rod and drawn wire.

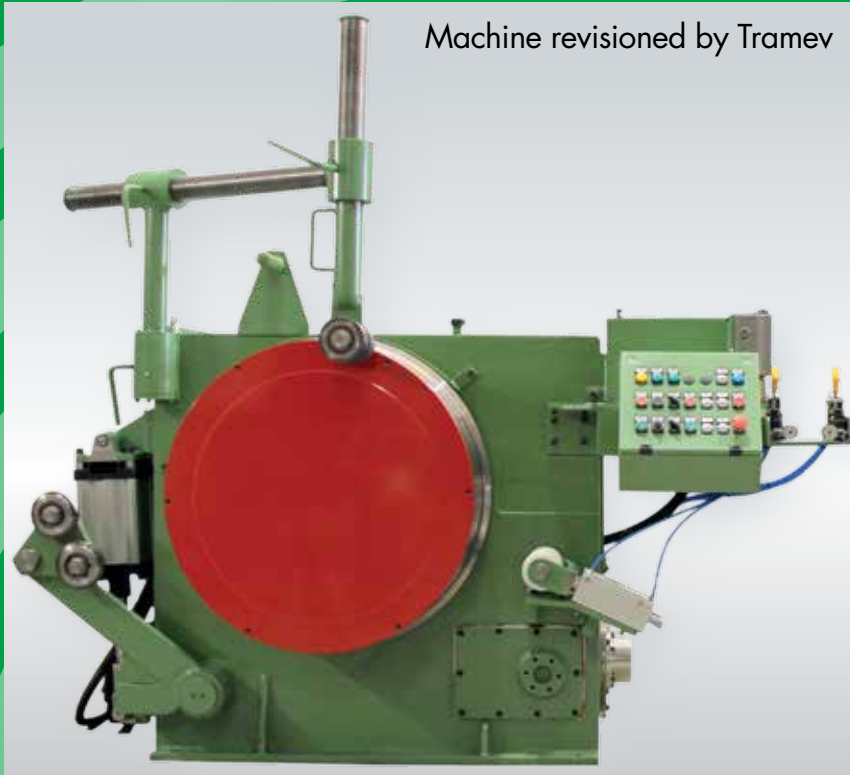

We have experience in drawing workshops, nuts and bolts and chains production and are therefore able to solve any problem arising from unwinding, stocking and moving or transport.

We produce both standard and special devices depending on your request, to improve productivity and to rationalize stocking spaces and loading of hanks.

Our solutions are quick and effective also thanks to a wide range of machines for mechanical workings and carpentry.

## USED MACHINES

With a deposit of over 5000 m<sup>2</sup> and the experience gained over the years in the wire drawing and bolts industry, TRAMEV is able to offer used and reconditioned machines for the wire industry and derivatives.

## EQUIPMENT

To complete the production and due attention paid to the needs of its customers, Tramev produces and sells equipment for wire industry and derivatives:

- Coils gripper
- Hanks and swifts on drawing
- Stearate recovery machine LCM 800
- Hush dog
- Welding machines
