LEASE FINANCING

Helping Your Business Thrive

How Does Leasing Work?

We call it "lease-to-own".

1. You find the equipment you need.
2. Contact us. We take your application and find the best lease for you.
3. We pay the vendor for your equipment.
4. You use the equipment while making monthly payments.
5. At the end of the lease, the equipment is yours!

All the benefits without the big up-front costs!

Lease 1 Financial provides accessible, understandable and trustworthy equipment lease financing and vehicle leasing.

Why Choose Us?

Limitless Equipment Options

We lease any piece of equipment that your business needs to operate!

Follow-Up

We ensure that your lease is meeting the needs of your business throughout your lease and beyond.

No Surprises

We stay on top of buy-outs so that you're not caught by surprise and paying for your equipment any longer than you need to!

More Funders = More Options

Our broad range of funders allow us more options to serve you, whether you're a new business or have been established for generations, whether you run a one-man shop or an international organization.

Multiple Leases?

We help manage your entire lease portfolio.
