BY MANUFACTURER

Saw, mills, lathes, CNC machinery, drill presses, brakes, shears, general fabricating equipment.

Aftermarket saw parts.

Saw parts supplier.

Wood and Metal working machinery – Saws, routers, drills, sanders, manual mills and lathes.

Piston and Screw air compressors and pneumatic accessories.

Laser line and point generators.

Circular style saws – cold saws, crosscut, framing and notching, aluminum and dual head machines.

Saws, arbor presses, bench presses and grinders.

Aftermarket bandsaw parts supplier.

Saws, routers and assembly equipment for the aluminum and PVC industries.

FAGOR AUTOMATION

Digital Readouts and CNC retrofits for manual mills and lathes.

Compact and rugged bandsaws for fabricators and job shops.

Heavy duty vertical and horizontal bandsaws.

Heavy duty vertical and horizontal bandsaws.

KANEFUSA CORPORATION

Carbide circular saw blades for non-ferrous and wood applications.

Industry leading vertical, horizontal and contour metal cutting bandsaws and carbide circular saws.

Bandsaw blades and industrial products.

High speed carbide circular saws.

Miter, radial arm and chop saws for wood and non-ferrous metals.

Sawing solutions provider.

Manual and automatic aluminum sawing machinery.

Aftermarket saw guides and parts.

Horizontal bandsaws, ironworkers and sawing accessories.

Heavy duty brakes, shears and presses.

Ironworkers and bending equipment.

Organic and synthetic metalworking fluids and lubricants for sawing, machining and grinding.

Stop gauges, pushers and measuring devices for the metal and woodworking industries.

Minimum quantity lubrication equipment and renewable lubricants and saws and machining processes.
