

HIGH SPEED TAPPING MACHINE

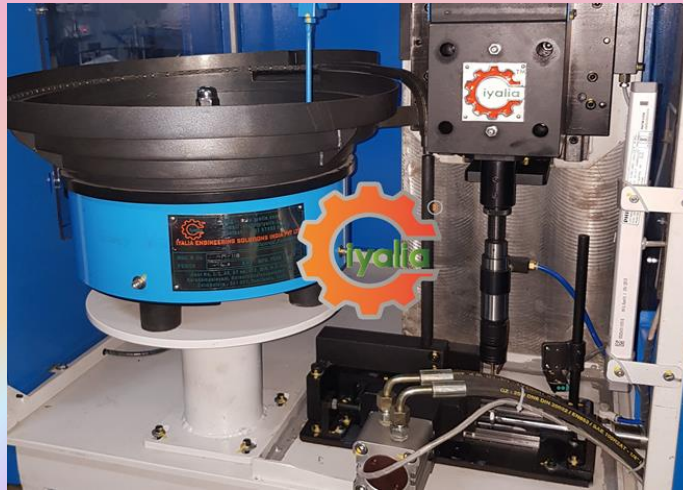

- Mold Inserts
- Blind Nut Tapping holes
- Hydraulic Fitting Nuts
- Pneumatics Fittings

Highlights of this machine

- International quality with High accuracy
- 3 seconds cycle time for 10mm thickness
- Dedicated mass production machine
- No worry for operator safety
- Pitch control with servo (infinity Pitch selection)

- ❖ Automatic Loading and Unloading,
- ❖ Head Rotation and Movement with servo Control
- ❖ Study head supported with LM Guides and Ball screws.
- ❖ Min power with Highest production capacity

Machine Specifications

Total machine power : - 3 kw
 Air requirement : - 5 Bar pressure
 Dedicated Bowl Feeder
 Machine stroke : - 300 mm
 Tapping capacity : - M12 Maximum
 Pneumatic component clamping
 Machine Lamp
 (Machine can be customized as per customers requirement)
