

As one of the leading transformer oil purification machine manufactures in China, Chongqing Assen Power Equipment Co., Ltd integrated design, development, production and sales. Relying on High-tech development and continuously providing users with satisfactory and high-quality products are our core ideas. Our company has independently innovated a number of proprietary technologies and passed the ISO 9001 quality management certification. It has formed a set of strict product technology development, mass manufacturing, quality control, and market planning management systems.

Main Product

- *ZYD transformer oil purifier machine
- *ZYD-I transformer oil regeneration system
- *ZYD-M mobile transformer oil treatment machine
- *ASV transformer evacuation system/vacuum pumping system unit
- *ZY portable insulating oil filter machine
- *COP cooking oil purification machine
- *SF6 gas recovery and purification machine
- *TAD dry air generator plant
- *TY turbine oil conditioner machine
- *TYA hydraulic oil filtration
- *Oil water separator unit
- *Oil testing kit
