

Power Bead Bending Machine

Model # BBM-08E, 8 Ga. 3HP, 220V/440,3 phase

Optional die set (extra)	\$
Custom profile die set	\$

Standard Features:

- ISO 9001 certified
- Heavy Duty cast iron construction
- (4) sets of standard dies, shear#S1, RD. Bead#S3/R6mm, and Step#S2/10mm & S4/8mm
- Easy adjustment and operation
- Ideal to make Ogee Bead, Turning, Wiring, Crimping, Burring, Elbow Edging, Single Bead, flange, slitting , flattening, offset

Specifications:

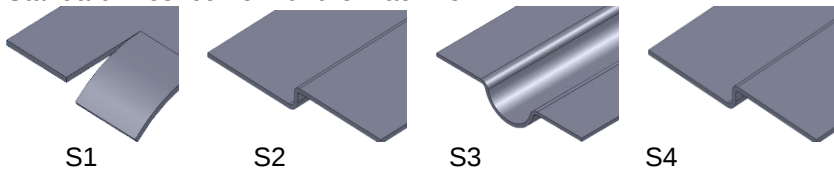

- Max. Capacity:
8 Ga. Mild steel
12Ga. Stainless steel
- Throat depth : 12"
- Cylinder length : 9"
- Cylinder speed : 15 rpm
- Main motor: 3 HP, 220V, (option 440v) 3 phase
- Overall dimensions: 61"x20"x50"(LWH)
- Machine Weight: 770 LBS
