Hyundai-Wia

Turning and Machining centers with box ways or linear way design. Two-axis, Multi-Axis Lathes and VTL models. Vertical and Horizontal Machining Centers along with drill tap centers. All machines are equipped with Fanuc controls.

Tornos

Building Swiss Lathes since 1914. Fanuc Controls offered with the five to eight axis DT & GT Series, B-Axis models are available. Multi spindle Swiss for high production/low cycle time. Esco Series for coil fed continuous production of 8mm diameter or smaller. Swiss NANO for micro size parts production. Swiss & EVODECO for complex machining with the lowest cycle times. North American HQ located in Des Plaines, IL.

SMEC (Samsung)

Fanuc Controlled Turning & Machining Centers with Box Way Design. Multi-Axis models available along with 2-Speed Geared Headstock. Chuck sizes ranging from 6"- 32" for Horizontal & Vertical Turning Centers.

Milltronics

Complete Line of Toolroom, Turning Centers, Machining Centers & Production Machines with a powerful conversational CNC Control.

Murata

Automated Loading of Twin Spindle, Single Spindle, CNC Chucker, CNC Turning Center, In-Line Opposed Twin Spindle CNC Turning Machines.

Campro

Vertical Machining Centers with Box Way designs, Double Column and 5-Axis Machining Centers. 6"- 10" Chucks, 2-Axis Lathes. All machines are made in Campros own factory.

TAKAMAZ

Japanese Builder of automated load/unload Turning Centers. From small economical 6" Chuck gang style to twin spindle Multi-Axis Turning Centers. North American headquarters located in Elk Grove Village, IL.

SPINNER

German built ultra precision machines for Turning, Milling, & Grinding applications. Hard turning with I.D. or D.D Grinding combination lathes. Five-Axis machining centers. Automated solutions and Turnkey Projects.

Starrag

Complete range of high accurate four & five-Axis Horizontal Machining Centers manufactured in both Switzerland & Germany. A leader in the aerospace industry offering full automation and Turnkey Solutions.

USED EQUIPMENT - FINANCE ACCESSORIES - SERVICE & PARTS

520 Pre-Owned Equipment Center is one of the countrys largest stocking distributors and the largest volume used equipment distributor in the Midwest. If you need to trade-in or sell your surplus equipment, we can purchase or broker it for you to maximize your return on investment.

FINANCING

520 Finance Group offers Machine Tool Financing made fast, simple and affordable. With over 20 years experience, we will custom tailor a finance program that is right for you.

Our Advantages:

- Simple Interest Loans / No Pre-Payment Penalties
- Application Only, Up to \$350,000.00
- Competitive Rates
- 24-84 Month Terms on New Equipment
- Up to 5 Year Terms on Pre-Owned Equipment
- Financing on all Types of Manufacturing Equipment
- Skip Payment Options
- 100% Financing

SERVICE & PARTS

Your Service Center for Northern Illinois

- Factory Trained Technicians
- Competitive Rates
- Parts Support
- Preventative Maintenance Programs
- We Can Service Other Major Brands
