

# BUILDERS OF HIGH-PRECISION FACE GRINDING MACHINES

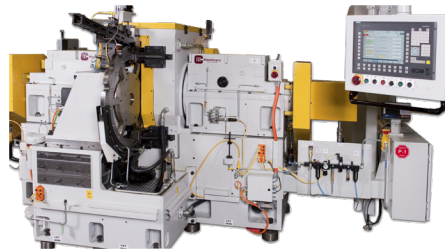

## The **C&B Advantage**

We deliver innovative grinding solutions

### Engineered Approach

Custom engineering for your part specific application validates that the right process and tooling is selected to maximize quality and production.

### Grinding Solutions

We will identify the right machine configuration and grinding solution for your application... Guaranteed!

### Grinding Subject Matter Experts

Our technical sales force and application engineers have designed thousands of grinding solutions since 1982.

## Industries Served

Aerospace

Automotive ICE/EV

Hand Tools

Industrial

Heavy Equipment

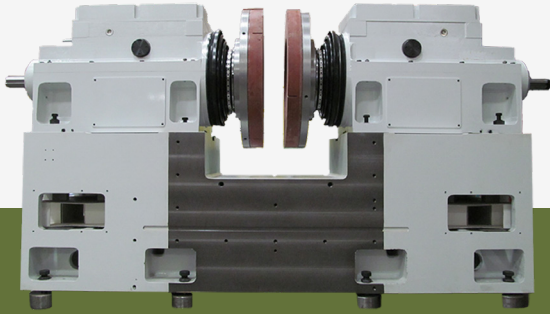

ATV

# Machines and Services

## Double Disc Grinding Machines

Swing Arm • Rotary • Reciprocator  
Park & Grind • Through Feed

## Vertical Micro Grinding Machines

Clamp Bore • Flexible Configurations  
Multi-Spindle • Single/Dual Spindle

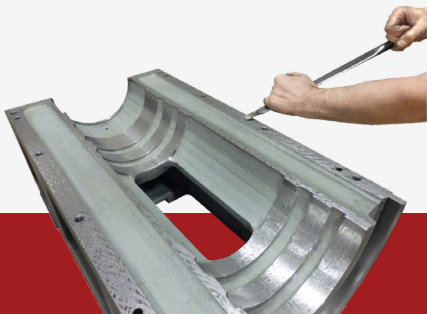

## Re-Engineered, Rebuild, and Retooling

Besly • Gardner • Giustina • Landis • Mattison • Other  
Double/Single Disc • OD/ID • Centerless • Hobs

## Customized Process Solution

Automation • Part Handling • Gauging • Vision  
Robotic Integration • Authorized Fanuc Integrator

## Services

Spindle Rebuild & Repair • Hand Scraping  
On-Site Support • Training • Spare Parts • Tooling  
Production Grinding • Machine Repairs • Training

## Controls Upgrades

Siemens • Allen-Bradley • Fanuc • Other  
Complete Systems • Retrofits • Upgrades
