

PROFILE & PRODUCT RANGE

2023/01

IMMA Global Group of companies, rooted since 1999, established in 2006 to produce mining machinery and equipments. The customer based approach reasoned to re-design & regenerate the supplied machines and solutions during the years, to be well organized single source **solution supplier** for mining, construction & oil companies as a manufacturer, supplier and EPC contractor.

As an EPC company, IMMA is dedicated for

- engineering,
- progress and
- challenge;

which helps to develop each unique product to be the source of R & D, step by step that is consequence of IMMA's experience and customer expectations to obtain best in the class products with competitive pricing.

IMMA has a priority for custom made solutions like a tailor, instead of bulk manufacturing abilities. So we proudly can say “**We have only one customer, who is you!**” by proving our engineering, approach, products, worldwide partnerships, solutions, service and after-sales activities. We make sure of our customers **to be supplied & served just like in a luxury tailor for their needs and requirements with the most competitive** costs.

Currently been serving to Europe, Africa, Middle East and Central Asia via custom made standardized products with global partners / distributors.

Manufacturing

- Mining Machinery & Equipment
