Make: 2Mag Magnetic Emotion

Model: KNW Series Air Compressor

Price: \$15,000.00

Condition: Used

Working: Yes

Warranty: AS-IS

Size:	69	49	60	1000
	Length	Width	Height	Weight

Description: Kobelco KNW Series Air Compressor with Ancillary Tanks

** Unit is unable to be tested in our facility. Unit comes with two Ancillary tanks as well as other miscellaneous accessories. Unit has some normal signs of wear with paint minor chipping... see photos for more details.

Description

Since the early 1980s, the Rogers KNW Series powered by KOBELCO is the preferred choice for reliability, energy efficiency, and serviceability. The Rogers KNW Series oil-free compressors provide oil-free air, protect your products and process from contamination, and offer unparalleled performance. Regardless of your industry, you can count on the KNW Series for clean, reliable, and efficient air.

Features:

Two-Stage Design

Heavy duty, two-stage compression module with thrust balancing for long bearing life in each stage.

Coated Rotors

ASTM 1144 steel rotors with exclusive PTFE coating on rotors and shafts for maximum efficiency and corrosion protection.

Gears and bearings are lubricated by a unique motor driven oil pump that provides positive lubrication prior to start-up, through operation and after shutdown.

Unique Design Features-Key design features ensure long air end life.

Non contact maintenance free air and oil seals

Thrust balance compensation

Cooling jackets

Dual vents to atmosphere ensure oil-free air
