COMPANY STORY

DAREX, LLC is proud to be an American company!

DAREX Sharpeners are built by hard-working Americans at our local business in Medford, Oregon. We have been creating premium sharpening tools right here in the USA for almost 50 years.

Founded in Chicago in 1973, our company was built on the core values of honesty, integrity, respect and enjoying what we do. From those humble beginnings, we have grown, proudly continuing a tradition of American innovation. Starting with our first sharpener, the DAREX M1, our entire product line has been designed, engineered, and tested to the highest standards. The basic values we started with remain vibrantly alive at the forefront of our business decisions.

We remain committed to designing, building, quality control and shipping our products right here in Medford, Oregon, with our American workforce. We could deliver cheaper products to you, but then we couldn't deliver the value and service you - and we - have come to expect.

You get what you pay for. DAREX Sharpeners are a premium tool that will last. If you call us for customer service, you will speak to someone at our manufacturing facility who knows our products and is committed to ensuring your satisfaction. We know you need your tools to work as hard as you do, so we have designed them to stand up to the rigors of daily use.

Tools are an investment. We make our sharpeners so that you can get the most value out of your investment, and your purchase of this new tool is also an investment in hard-working Americans. Thank you for your trust in us and our products.

COMPANY TIMELINE

1947

Bernard Welding Equipment Co. is founded by Art Bernard, one of the world's 1st welding engineers. Art's son, Richard soon joins and Bernard Co. grows to become one of the premier manufacturers of MIG welding guns & accessories.

1973

DAREX incorporates. Richard Bernard and Dave, his son, are founders. The first three letters of the DAREX name are derived from the first letters of David, Arthur, and Richard Bernard.

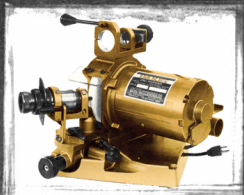

1976

The first DAREX drill sharpener, the M1, is introduced at the Cleveland regional tool show.

1979

The second generation drill sharpener, the M2, is introduced.

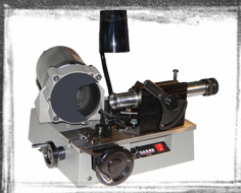

1981

Designed by Dave Bernard, the third generation drill sharpener, the M3, is introduced.

1988

Endmill sharpeners are introduced.

1992

DAREX wins the 100 Best Companies to Work For in Oregon award.

1996

A consumer line debuts in August at the International Hardware Show in Chicago.

2002

The XPS-16 CNC sharpener is introduced.

2003

The XT-3000 Expanded Tool Sharpener is introduced.

2004

DAREX is again named on of Oregon's Top 50 Places to Work.

2009

DAREX introduces the Auto Sharpener, automating the sharpening process on the already popular XT-3000.

2013-2015

DAREX is again named one of Oregon's Top Places to Work.

2016

The updated CNC-XPS-16+ is introduced at the IMTS Show in Chicago.

2020

DAREX Industrial Brand is sold to former DAREX President Gary Varney, along with the complete Industrial product-line and DAREX trade mark.

2022

New products coming in 2022!

INDUSTRIAL CUTTING TOOL SHARPENERS

DAREX[®]
WORLD'S BEST SELLING INDUSTRIAL DRILL SHARPENERS

THE WORLD'S BEST-SELLING INDUSTRIAL CUTTING TOOL SHARPENERS

Whether your shop specializes in high-tech mass production or creative custom fabrication, there's a Darex sharpener that will lower your tool costs and make your toughest jobs run smoothly.

Darex offers a wide range of sharpeners for manufacturers and fabricators of all sizes. For smaller shops with low-volume or intermittent sharpening needs, the V-390 is our most popular model. The XT-3000 and XT-3000A are the versatile workhorses for most mid-to-large size manufacturers, and the fully automatic XPS-16+ CNC provides the ultimate in precision and productivity. In fact, the high-capacity XPS-16+ is the only machine in the world that can automatically detect a drill's stick-out, diameter, and web thickness—then sharpen and hone the drill—all in one continuous process with minimal operator involvement.

DAREX SHARPENERS PAY FOR THEMSELVES

At Darex.com, you can calculate how quickly our sharpeners pay for themselves with our online ROI calculator. Or simply compare the cost of an in-house sharpening machine against your monthly expenses for the following:

- Purchasing new bits
- Sending dull bits out for re-sharpening
- Labor downtime
- Machine downtime
- Shipping and handling
- Double inventory costs for sending bits to a sharpening service

V-390

SHARPENS COMMON POINT STYLES WITH EASE

Get precision drill sharpening at an irresistible price. With the Darex V-390, you can accurately sharpen most common drill sizes on-site for less than the cost of 100 drills. Even very small shops can quickly sharpen their own drill bits and keep on working. It's simple, intuitive design gives everyone access to sharp drill bits when they need them, and is the most cost effective sharpener for intermittent use.

V-390 SPECIFICATIONS

- Drill capacity: $\frac{1}{8}$ " – $\frac{3}{4}$ "
- Point angle: 118° – 140°
- Point style: conic and standard split point
- Power: 4.5 amps at 115V
- Size/weight: 12"×11"×9", 25lbs
- Borazon (CBN) wheel for HSS & cobalt;
Diamond wheel for carbide also available
- Morse-Taper chuck $\frac{1}{8}$ " – $\frac{3}{4}$ " also available

XT-3000

XT-3000 SPECIFICATIONS

- Accepts drill diameters of: $\frac{1}{8}$ " – $\frac{13}{16}$ "
- Accepts drills 2" and greater in length
- Point angles sharpened: 118°–150° (90° option available)*
- Point styles sharpened: Standard conic and split point
- Sharpens countersinks*
- Sharpens Step Drills*
- Sharpens left-hand drills*
- Sharpens $\frac{13}{16}$ – $1\frac{3}{16}$ " drills*
- Sharpens MT & Common Shank Drills*
- Power: 2.5 amps at 115V; $\frac{1}{4}$ hp
- Machine size: 20"× 20"× 16"
- Machine weight: 68 lbs
- Sharpening and Point Split Wheels included: Borazon (CBN) for HSS & cobalt (diamond option for carbide available)
- Vacuum optional
- Machine and accessory stand optional

* with respective attachments only

CREATE A WIDE VARIETY OF POINT STYLES WITH FOOLPROOF PRECISION

This expandable tool sharpener grows as your shop's needs grow. When you want the right point for the job sharpened quickly and simply, the Darex XT-3000 is your best choice. It sharpens a wide variety of sizes and styles of drills, as well as a wide range of other tools, with ease and accuracy. For the price of a couple hundred drills, you can sharpen in-house for pennies a drill. The XT-3000's chuck/cam design makes it easy for everyone in your shop to be a sharpening expert. This is a rock solid, heavy-duty machine capable of sharpening all day, every day. Attachments can be interchanged in seconds and all adjustments can be made without tools. Incorporating 45 years of sharpening expertise, the Darex XT-3000 is the finest, most technologically advanced manual tool sharpener ever produced.

XT-3000A

AUTOMATE YOUR SHARPENING AND INCREASE PRODUCTIVITY

The XT-3000 Auto is an affordable way to bridge the gap between a manually operated machine and a fully automated CNC sharpening system. It provides fast payback and is easily integrated into your workflow. It always delivers consistent results regardless of operator skill levels, so it's ideal for multi-shift manufacturing operations and extended production runs. The XT-3000 Auto-Sharp does everything the XT-3000 does; but increases productivity by automating sharpening—and at a very affordable price.

XPS-16+

A FULLY AUTOMATIC 4-AXIS CNC DRILL GRINDER & SHARPENER WITH 6 JAW CHUCK WORK HOLDING SYSTEM

Only a CNC can reproduce the complex, high-tech points found on today's premium Carbide and HSS drills, and the XPS-16+ can do it all with the touch of a button. For the price of a couple hundred premium carbide drills, you can sharpen in-house for only pennies a drill. This high-capacity machine can easily sharpen thousands of drills every week. With a user interface as easy to learn and use as a smart phone, everyone in your shop can be sharpening on the XPS-16+ in just a few minutes. Sharpen pre-programmed drill point profiles or program your own custom profiles. The XPS-16+ is the only machine in the world that can automatically detect the drill's stick-out, diameter, and web thickness—and then sharpen and hone the drill—all in one continuous process with minimal operator involvement.

XPS-16+CC

**A FULLY AUTOMATIC
4-AXIS DRILL GRINDER
AND SHARPENER WITH
ER-25 COLLET CHUCK
WORK HOLDING SYSTEM**

In addition to the XPS-16+, Darex also offers the XPS-16+CC Collet Chuck. With the same capabilities and precision as the XPS-16+, where the XPS-16+CC Collet Chuck really shines is its ability to precisely retain and sharpen common shank (endmill shank) and straight fluted drills in addition to the standard parallel shank drills. If your drill inventory also contains common shank or straight fluted drills, then this is the machine for you. The XPS-16+CC Collet Chuck is able to sharpen your drills from start to finish - all in one continuous process - with minimal operator involvement.

COLLET CHUCK CONFIGURATION

- Sharpens double diameter (common shank/end mill shank) drills
- Sharpens straight flute drills
- Sharpens standard parallel shank drills
- Includes 18 pc ER-25 collets - 3/32-5/8

Common/End Mill Shank Drills
