Goff Shot Blast Machines

Goff, Inc. manufactures a complete line of abrasive shot blasting equipment. Arrow Industrial Equipment offers both new and used Goff shot blasting equipment in various states.

Goff's airless Barrel Blast machines are the natural choice for economical batch-type blast cleaning.

Table Blast machines are designed for larger parts not suitable for tumbling due to excessive size and weight limitations.

Spinner Hanger Shot Blasting equipment is one of the most efficient blasting processes for high volume like-kind parts.

Skew-Roll machines combine Goff's Exclusive airless wheel blast unit with a variable speed skew-type conveyor system.

Goff's Wire Mesh Belt machines clean parts using a mesh belt conveyor to continuously pass parts through an abrasive tight entry vestibule into a blast chamber for exit through a series of seals in the egress vestibule.

Goff Structural & Plate Blast

Goff, Inc. has a large number of machines designed to meet your Structural & Plate blast needs. Structural Blast, Plate Blast, and Monorail Blast Machines are custom engineered for your specific cleaning processes.

Blast Cabinets, Pots & Rooms

Arrow Industrial Equipment offers a complete line of Hand Blast Cabinets, Blast Pressure Pots & Blast Rooms from a variety of brands to help you accomplish a multitude of blasting projects.

Hand Blast Cabinets & Sand Blast Cabinets are often the first blast machine a company will purchase and put into use.

Arrow Industrial Equipment offers a complete line of Pressure Pots, accessories, and replacement parts.

NEW & USED

Arrow Industrial Equipment is pleased to offer both Pneumatic and Mechanical Recovery Blast Room systems!

Burn-Off Ovens

Arrow Industrial Equipment is proud to offer our customers top-of-the-line pollution controlled cleaning furnaces, or burn-off ovens, manufactured by Pollution Control Products, Inc. (PCP).

Parts Washers

Arrow Industrial Equipment has the right solutions for Parts Washers to complete your metal cleaning processes.

Choose the Goff HydroPulse® parts washer for optimum degreasing when your process demands the best in high production parts cleaning. Select from 10 different models.

JenFab/JRI Top Load Parts Washers are perfect for cellular washing or for those installations that need a high value-added cleaning process in a small space. They also offer Front Load Washers and Conveyor Belts & Automated Pass Through Washers

Parts & Accessories

Arrow Industrial Equipment provides quality professional blast parts & accessories for users of a wide variety of equipment and brands.

Abrasives Media

Arrow Industrial Equipment has a complete line of blasting media for timely, cost-saving shipment from our warehouses in Houston and Odessa.
