

Since Talmac Machine Tools was established in 1993 by my father William Tallarico, we have built an outstanding reputation throughout South Africa, with excellence through service.

We have dedicated admin staff for handling the import and export of machine tools, spares and accessories.

Talmac Machine Tools has a large stock holding of conventional and CNC machines, pressbrake tooling and welding machines.

Talmac Machine Tools has highly-skilled service engineers to backup our installations.

We are proud to support the local industry with our products and services.
