GREENWAY[®]

JARNG YEONG ENTERPRISE CO., LTD.

Manufacturer of CNC Lathe & Cam Auto Lathe & special purpose lathe from Taiwan

About GREENWAY

- Company Name: Jarng Yeong Enterprise CO., LTD
- Brand Name: **GREENWAY**
- Location: Shalu District, Taichung city, Taiwan
- Established in 1978 year
- Factory area :74347 sq. ft (2089 Taiwanese ping)
- Employees: 40
- Website: <https://www.cnc-lathe.com/>
- Phone number:+886-4-26152157
- E-mail: greenway@cnc-lathe.com
- The manufacturer of CNC lathes and Cam auto lathes

About GREENWAY

JARNG YEONG ENTERPRISE CO., LTD. was founded in 1978, is a Taiwan-based professional manufacturer specializing in the production of CNC lathes and cam automatic lathes.

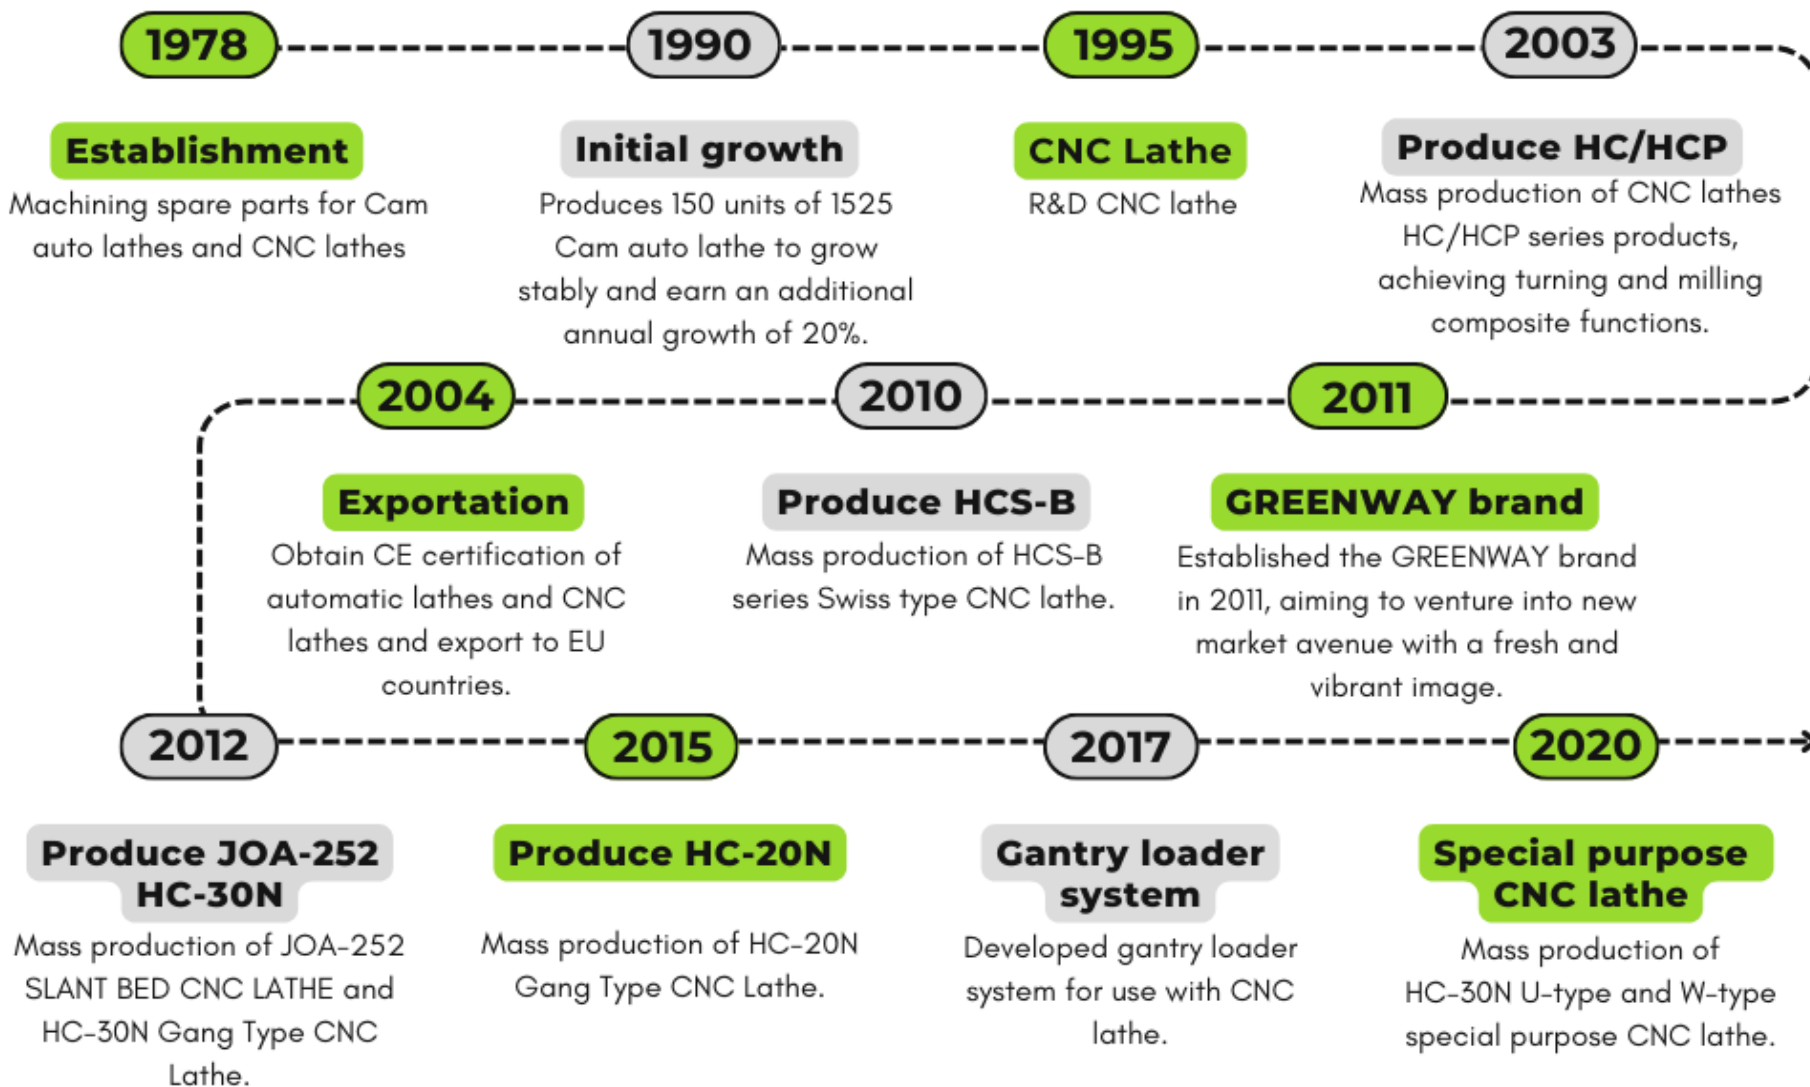

Since company's establishment, all the personnel adhere to professionalism, service enthusiasm, integrity, and attentive attitude as the core values, while attentively listening to the customers' needs.

We provide high-quality lathes and efficient services with excellent efficiency.

In an effort to break away from the traditional image of manufacturing industry, JARNG YEONG ENTERPRISE CO., LTD established the **GREENWAY** brand in 2011, aiming to venture into new market avenue with a fresh and vibrant image.

GREENWAY The History of Greenway

Brand Image

The meaning of GREENWAY :

GREENWAY symbolizes brand-new and lively style and differs with general and previous traditional manufacture industry.

Global

The products are exported to nearly 30 countries worldwide.

Rigid

Special base design reduces resonance, significantly extending the machine and tool life span.

Exact

High rigidity casting combined with a high-quality assembly team ensures machining accuracy and reliability.

Excellent

Continuous improvement to achieve perfection is Greenway's philosophy.

Non-stop

Non-stop improvement

Products

CNC Lathe

- **Swiss type CNC lathe**
HCS-25B/32B Dual-Spindle Swiss type CNC Lathe
HCS-25/32 Single-Spindle Swiss type CNC Lathe
- **CNC turret lathe**
JYN-42 Turret Type CNC Lathe
JOA-252 Turret Type CNC Lathe

Swiss Type CNC Lathe

CNC Turret Lathe

Products

CNC Lathe

- **Gang type CNC lathe**
HC-20N Economical CNC Lathe
HC-30N Economical CNC Lathe
- **Multi-Tasking Turning Center**
HC-30 Multi-Tasking Turning Center
HCP-42 Multi-Tasking Turning Center

Gang Type CNC Lathe

Multi-Tasking Turning Center

Products

Automated equipment

- **CNC lathe with automatic feeding system**
HC-20N with Rear feeding system
HC-30N U-type + Vibration bowl feeding system
HC-30N J-type + Arranged-bar feeding system
- **CNC Lathe with Gantry Loader**
Applicable models as below:
HC-30N
HC-30
HCP-42
JYN-42

Special Purpose Machine

Gantry Loader system

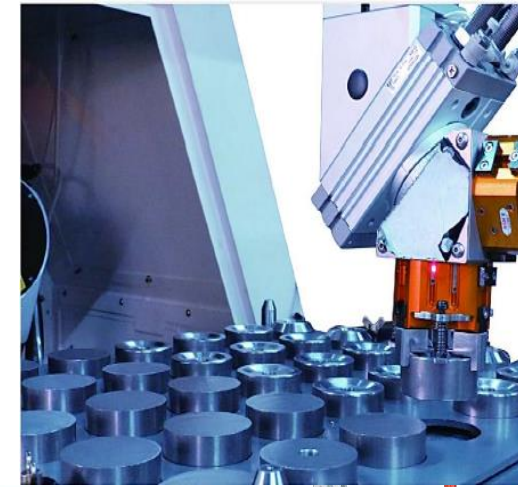

CNC lathe + Automatic feeding system

Type of automatic feeding system

1. Gantry loader + pallet type work feeder station
2. Vibration barrel type work feeder station
3. Arranged-bar feeding system
4. Rear feeding system

Upgrading

1. Enhance production efficiency
2. Achieve high speed and high precision
3. Reduce minimize losses and waste
4. Unmanned operations and reduce labor costs

Products

Cam auto Lathe

- **Cam Auto Lathe**
JY-1525/2025 Cam Auto Lathe
JY-32H/42H Cam Auto Lathe
JY-105 Cam Auto Lathe
JY-1525EL Special-Purpose Auto Lathe
(for long-workpiece)

Cam Automatic Lathe

GREENWAY's support for dealers.

PRE-PURCHASE

GREENWAY provides evaluation services to assist customers in enhancing machine processing efficiency and increasing production capacity.

**PRE-PURCHASE
SERVICES**

REASONABLE PRICES

GREENWAY manufacture good quality CNC lathes at reasonable prices. A reasonable price allows dealers to obtain better profits.

**REASONABLE
PRICES**

QUALITY

QUALITY

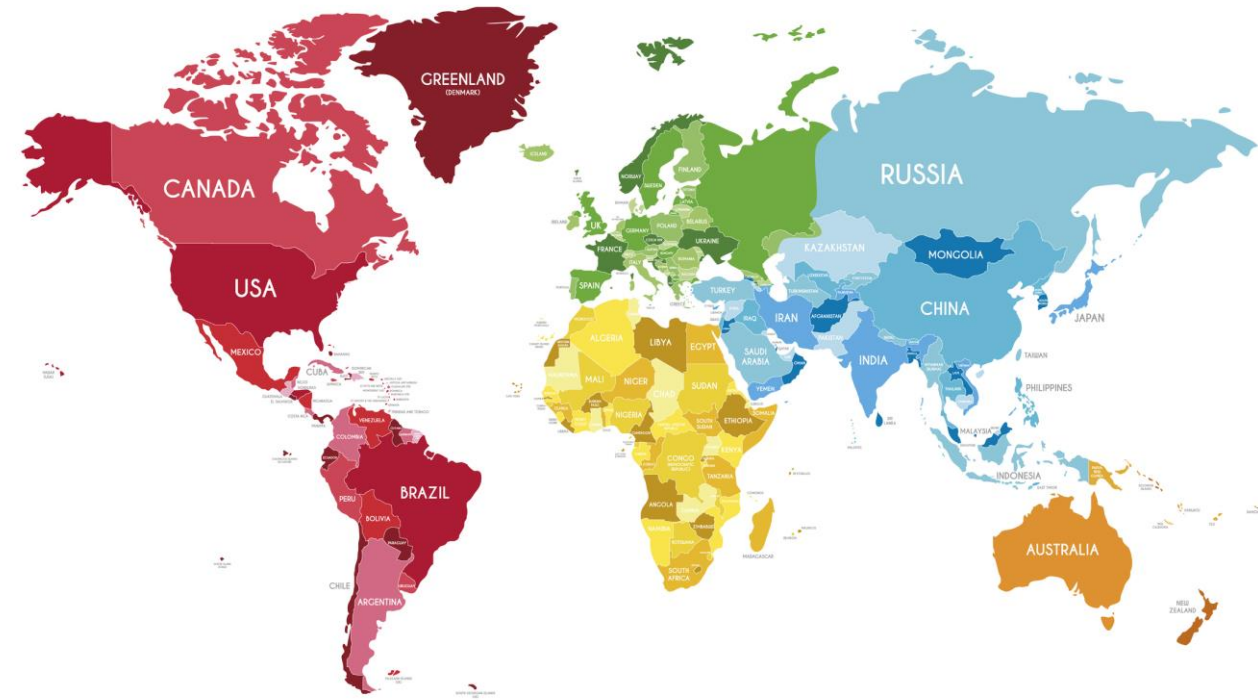

GREENWAY is able to exercise strict quality control throughout the whole in-house process from product design, manufacturing, assembling and inspection

AFTER SALES SERVICE

GREENWAY provides the highest quality of after-sales service to efficiently solve any issues and serve as the best support for our customers

**AFTER SALES
SERVICE**

GREENWAY Around The Global

Turn-key Project

1

Step 1 - analyzation

Analyze the manufacturing process of workpieces and choose the suitable model of machine.

2

Step 2 - Manufacturing

After receiving signed-P/I and payment, the production start.

3

Step 3-Machine+sample setting

Technician sets up the parameters of machine according to the workpiece. After setting up machine, the sample will be done.

4

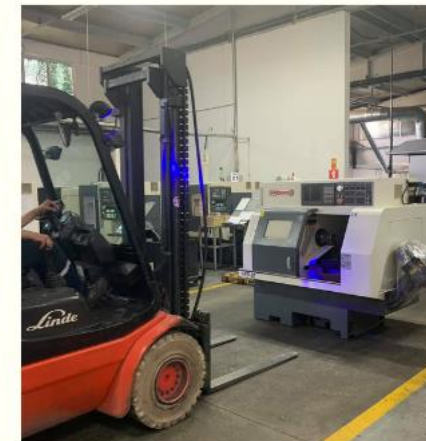

Step 4 - Inspection

Measure dimensions of workpiece to customer for inspection.

5

Step 5 - Turn key to customer

After machine arrives at customer's factory, technicians will go on-site to position the machine and hand it over.
