CONTRACT MANUFACTURING AND ENGINEERING

Tell us what you need
— we'll make it happen.

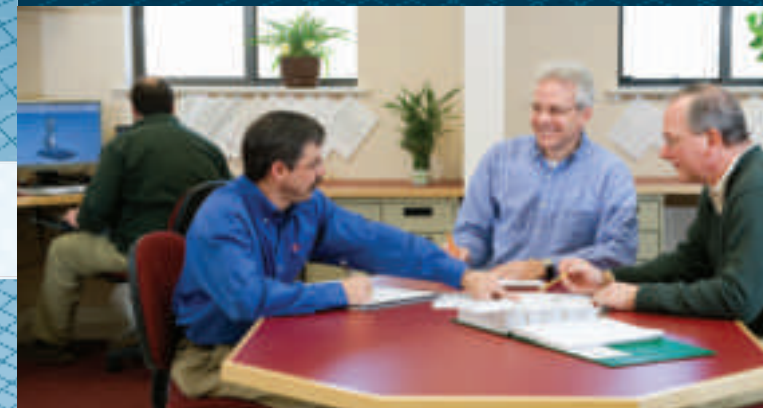

A **REPUTATION** FOR THE **RIGHT** **SOLUTION**

- Increase your capacity
- Reduce your manufacturing footprint
- Avoid manufacturing expenses
- Reduce costs for certified quality systems and process implementation
- Increase your operational efficiency and flexibility

For more than twenty-five years, companies have come to Kalow Technologies seeking solutions to their specific manufacturing and design challenges. Kalow has built a solid reputation by quickly responding to these challenges with innovative solutions.

Our innovative solutions and efficient services save our customers money, give them peace of mind, and keep them coming back year on year.

OUR PEOPLE

MAKE THE
DIFFERENCE

It takes a great deal of trust to hand over a large and complex project to a company with whom you have never worked. Kalow's team works to win your confidence.

- Guided by engineers and steered by common sense
- Quality of workmanship and customer satisfaction focus
- Strong relationships are at the heart of business
- A personalized, focused commitment to our customers
- We started small and we have not forgotten this

OUR EXPERIENCE

MAKES YOUR
INNOVATIONS BETTER

Being agile and focused has given us the opportunity to work on a variety of projects for a broad range of industries. Since 1983, we've grown not only in size but in experience. We can hit the ground running on virtually any project that comes our way. Whether you're a Fortune 500 corporation, an entrepreneur or an inventor, our strength is in making exactly what you need and improving it in the process.

- Satisfying customers needs for over 25 years
- Vast experience in a wide array of industries
- Full-service product support
- In-depth familiarity with global standards
- Proficient in international & domestic shipments

"Responsive, flexible, effective and capable. The entire team at Kalow acts as an extension of our organization. Kalow Technologies has been a truly valuable partner to us."

— 20-year Kalow Customer

ENGINEERING SERVICES AS DIVERSE AS OUR CLIENTS AND AS SPECIFIC AS THEIR NEEDS

Bring us your prototype, finished design, or sketch on a napkin. We have the capabilities and skills in-house to get your idea out the door. At Kalow we don't just think, we think ahead.

- Cross-disciplined engineers and technicians
- Mechanical, hydraulic, pneumatic, optical, electric, servo/stepper control systems
- Embedded electrical design, programmable logic controls, and PCB layout
- 3-D CAD and Solidworks capabilities
- Design familiarity for CE, UL, ETL and CSA certifications

MANUFACTURING WE GAUGE OUR SUCCESS BY HOW WE BUILD YOURS

From assembling the simplest machinery to troubleshooting complex technology, we work to the highest standards of quality control and workmanship. We ship directly to our customers' customers, and that leaves no margin for error.

- Electromechanical machine and system builds
- Electromechanical, hydraulic, and pneumatic control system integration
- Electrical panel and control box assemblies
- Value-added kitting
- Cable assemblies and harnesses
- Programmable Logic Control integration
- Comprehensive process and quality control
- Spare parts, field service and refurbishing
- 54,000 square foot, adaptable facility
