

COMPETENCE IN MACHINE TOOLS

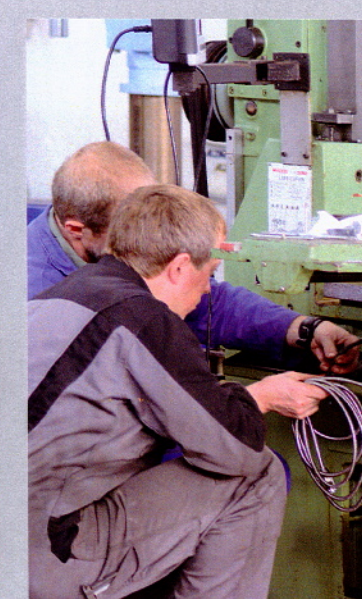

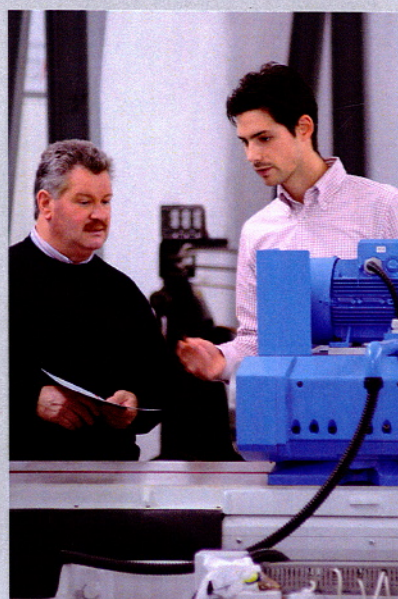

„As a long-standing customer of Kraft Werkzeugmaschinen GmbH, we give them the highest grades.“
Gunther Gauck, CEO of SGS GmbH, Frankenthal

„Kraft Werkzeugmaschinen – for us, a competent and reliable partner.“
Hr. Ferenz, Ferenz Mechanische Fertigung GmbH, CEO

„Kraft Werkzeugmaschinen is a reliable partner offering good products and services, and we can recommend them wholeheartedly. We will gladly continue to work together with Kraft Werkzeugmaschinen in the future, and we wish Mr. Kraft and his team the best success.“

Fred Kalwa, CEO, Fred Kalwa Oberflächentechnik

THE COMPANY: QUALITY AND EXPERIENCE

Kraft Werkzeugmaschinen GmbH was founded in 1990. Entrepreneur Gerhard Kraft already had 25 years' experience in the industry when he founded the company – setting standards in terms of product quality and know-how. Small wonder then that Kraft Werkzeugmaschinen GmbH has established itself in international markets: We provide a substantial range of machine tools to our very satisfied and continually growing clientele. Since we are a member of the Fachverband des Maschinen- und Werkzeug-Großhandels e.V. (FDM) [machine and tool wholesalers trade association], our clients additionally benefit from our cooperation network – with constant access to more than 15,000 available machines in stock.

OUR OFFER: MACHINES AND CONSULTING

Our clients know us as a competent partner for all questions around lathing, milling and grinding. Individual consulting, also on-site at our clients' locations, is what makes us a sought-after and trusted problem-solver – and for us, it is a point of honor to always live up to our clients' high expectations. We like to go the extra mile in order to take a look at complex situations and then recommend the appropriate machine tool technology. Thanks to our partnership with GE Diskus Leasing GmbH, we can offer our clients highly flexible financing and leasing solutions. We also procure and produce spare parts. A further big benefit for our customers: Our well-trained staff is at your disposal for preventive servicing, repairs and maintenance. We are there for you 24/7 – even on weekends and bank holidays!

MACHINE TOOLS: FOR EVERY NEED

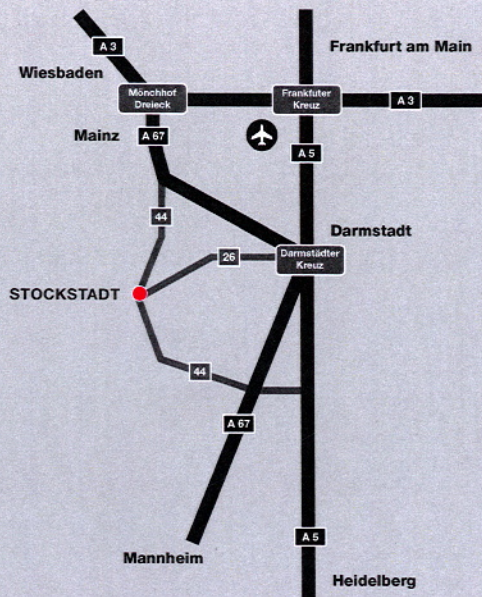

lathes · vertical turret lathes · milling machines · gentry type milling machines · table size boring and milling machines · floor borers · drilling machines · sheet metal working machines · cylindrical grinders · roll grinders · surface grinders

In our company showroom, clients can choose from up to 200 machines. Two buildings with a total area of 3,000 sqm offer ample space for demonstration purposes. If necessary, we can provide our clients with instruction and training sessions on all aspects of machine tools.

OVERHAULED MACHINES: WITH A WARRANTY

Over the past years, demand for high-quality used machines has been high – our product range also takes care of this. Apart from the classic used machine which we test for proper operation, we offer overhauled machine tools which have the same geometry as new machines and come with a CE certificate and a 12 month warranty. Here, we cooperate with four partner companies in Eastern Europe. Throughout Europe, we have a particularly good reputation for the overhauling of TOS grinding machines, but also those of other manufacturers.

OUR HEADQUARTERS: A WELL-CONNECTED REGION

Kraft Werkzeugmaschinen GmbH
Lindenstrasse 21
Postfach 1210
D-64589 Stockstadt/Rhein
Tel.: +49 (0) 6158 84772
Fax: +49 (0) 6158 86931
E-Mail: info@kraft-machines.com
www.kraft-machines.com

Our company headquarters at Stockstadt (Rhein) takes advantage of ideal infrastructural conditions: we are located right in the Rhein-Main business region, near Frankfurt International Airport and in the direct vicinity of Gernsheim container harbor. Thanks to the nearby autobahn and the railway station directly adjoining our company site, our guests can join us easily. And as a visitor, you can also enjoy our beautiful surrounding landscape.
