YOUR MACHINE TOOL SOLUTIONS PARTNER, SINCE 1979

Powering Productivity. Partnering for Success.

At the core of everything we do is an unwavering commitment to excellence. We're proud to be the trusted partner manufacturers and industrial operations rely on for high-performance machine tools and expert support that keeps production moving.

YOUR SOURCE FOR QUALITY NEW AND USED MACHINE TOOLS

We stock a full range of new and used manual and CNC metalworking machinery, fabrication equipment, tooling, and accessories from the industry's most respected brands - Mazak, Okuma, Doosan, DMG MORI SEIKI, HAAS, Hyundai, Behringer, Weiler, Lincoln Electric, Giddings & Lewis, HNK, DoAll, ACER, Bullard, Scotchman, Fadal, TOS, You Ji, Cincinnati, Carlton, Amada, Johnford and so many more!

Backed by decades of hands-on industry experience and a robust inventory of used machine tools, our team delivers smart guidance and real-world solutions for any production need. Whether you're expanding capacity, upgrading technology, or replacing older equipment, we help you identify the right machine for the job, fast.

Innovation, Reliability & Results

As the manufacturing landscape evolves, we remain focused on innovation, reliability, and customer success. Our mission is simple: Provide the machine tools and expertise that empower manufacturers to operate at peak performance.

With a reputation built on integrity, results, and long-term partnerships, we are proud to be a trusted resource for machine tool solutions across the industry.

YOUR TRUSTED PARTNER FOR AUCTIONS AND LIQUIDATIONS

Ready to Sell? We Make It Simple.

Harris Auctions is uniquely positioned to manage the auction sale of surplus manufacturing-related assets with ease and efficiency.

Our team brings:

- Extensive asset valuation expertise
- Targeted, data-driven marketing strategies
- Seamless auction planning and execution

We focus on maximizing your return while ensuring a smooth, timely process from start to finish.

Whether your equipment is idle, outdated, or no longer aligned with your operational goals, we'll develop a strategic auction plan that attracts qualified buyers and delivers results clearly, quickly, and transparently.

A Global Reach with Proven Results

With an established international presence and aggressive marketing campaigns, we reach motivated buyers around the world. Our experience spans companies of every size, from small machine shops to global Fortune 100 manufacturers.

No matter the scale of your operation, Harris Auctions delivers expertise you can trust and results you can count on.

Your equipment has value. We know how to bring it to market.

Let us help you unlock the value of your machine tools, connect with buyers, and move forward with confidence.

NEW MACHINE TOOLS

Shibaura Machine SHIBAURA MACHINE

Shibaura Machine, manufactured in Japan, excels at both development and manufacturing of a wide range of products.

Product Types available at Harris Machine Tools:

- Horizontal Boring Machines
- Vertical Turning Lathes
- Mill / Turn
- Double Column Machining Centers
- Horizontal Machining Centers

YOU JI

Established in 1978 and headquartered in Kaohsiung, Taiwan, You Ji has built a strong reputation for producing heavy-duty, highly rigid machines capable of handling large and complex workpieces.

Product Types available at Harris Machine Tools:

- Vertical Turning Lathes
- Horizontal Boring Mills
- Horizontal Machining Centers
- Horizontal Slant Bed Lathes
- Vertical Milling & Turning Centers

NEW MACHINE TOOLS

FPT

FPT is a leading Italian company manufacturing medium to large size milling and boring machines. FPT INDUSTRIE S.p.A. offers high-tech machines able to solve and improve the traditional productive processes connected to the most important and delicate mechanical machining. Product Types available at Harris Machine Tools:

- Floor Type Horizontal Boring / Milling
- Vertical Milling Machines - 5 Axis
- Vertical Turning Centers
- Table Type Boring / Milling
- Custom Machines
- Friction Stir Welding
- Mill / Turn Options Available throughout

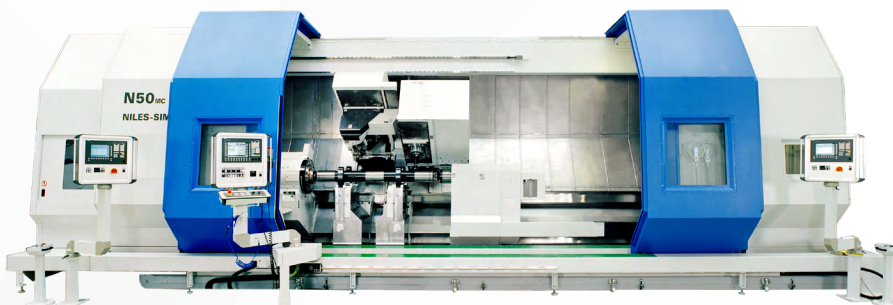

NILES-SIMMONS

NSH USA Corporation manufactures specialized and multifunction machine tools and automation systems for railway, automotive, aerospace, and other industrial manufacturers worldwide. Founded in 1910 and based in Albany, New York, NSH USA is a member of the NSH Group (Niles-Simmons-Hegenscheidt), an international leader in machine tool technology.

Product Types available at Harris Machine Tools:

- CNC Lathes
- 5-Axis Turn & Mill Centers
- Multi-Axis Turn-Broaching Machines
- Vertical Turning Centers
- Crankshaft / Camshaft Milling Centers

NEW MACHINE TOOLS

APEC

APEC produces high quality 5-Axis CNC machining centers (horizontal, vertical, double column, and gantry type) designed for the Aerospace, Automotive and Mold & Die industries.

Product Types available at Harris Machine Tools:

- 5-Axis Horizontal Machining Centers
- 5-Axis Vertical Gantry Machining Centers
- 5-Axis Double Column Gantry Machining Centers
- 5-Axis High Speed Bridge Mill

JOHN FORD

Established in 1984 in Taiwan, Johnford has become one of the leading CNC machine tool manufacturers around the world, with over 40 years of experience in designing and making high-quality precision machine tools.

Product Types available at Harris Machine Tools:

- Vertical Machining Centers
- Gantry Machining Centers
- Large Horizontal Turning Centers
- Bridge Mills
- Multi-Axis Horizontal Turning Centers
- CNC Flat Bed Lathes

NEW MACHINE TOOLS

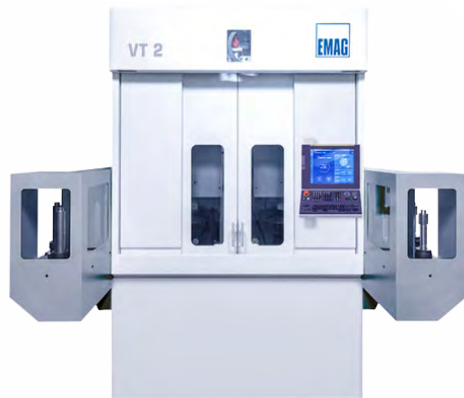

EMAG

The EMAG Group delivers manufacturing systems that span the entire process chain, supported by technologies such as turning, milling, grinding, laser welding, and PECM. Serving both automotive and non-automotive sectors, EMAG uses its collective engineering expertise to offer modular, customized, high-precision solutions from its headquarters in Salach, Germany.

Product Types available at Harris Machine Tools:

- Vertical Turning Machines
- Grinding Machines
- Vertical Machining Centers
- Gear Cutting & Grinding Machines
- Laser Welding Machines
- ECM / PECM

QUICKTECH

For more than 25 years, Quicktech Machinery, a division of Tongtai, has built a global reputation for precision, innovation, and performance. As the former Hitachi Seiki OEM, Quicktech combines Japanese engineering heritage with advanced Taiwanese manufacturing to produce compact, high-productivity CNC mill-turn centers designed for today's competitive manufacturing environments.

Product Types available at Harris Machine Tools:

- Mill & Turn Centers (4 & 5-Axis with Tailstock)
- Mill & Turn Centers (Robot & B-Axis)
- Mill & Turn Centers (with Turrets)
- Mill & Turn Centers (10-Axis, Dual B-Axis)
- All Mill Mill & Turn Centers (available with 4&5-Axis up to 10-Axis)

NEW MACHINE TOOLS

NEXTURN
SWISS TURN LEADER

NEXTURN KOREA

Nexturn produces Swiss CNC lathes which are engineered to maximize accuracy and economy in the production machining of precision parts.

Product Types available at Harris Machine Tools:

- Multi-Axis (7, 8, 9 and 11-Axis) Swiss Style CNC Lathes

 SH/MADA

SHIMADA

Shimada Machine Tool Drives Co., Ltd., founded in 1947 in Aichi Prefecture, Japan, was born from the Shimada family's vision to pioneer their own high-performance multi-spindle machine technology. The name "Shimada" became synonymous with engineering excellence and cutting-edge drives in the world of machine tools.

Product Types available at Harris Machine Tools:

- Multi-Spindle Lathes

NEW MACHINE TOOLS

ENSHU

Enshu machines, headquartered in Hamamatsu, Japan, are known for their legendary build quality, which unlocks new levels of productivity for the shops who use them, allowing our customers to achieve consistently accurate results at competitive prices.

Product Types available at Harris Machine Tools:

- Up to 5-Axis Horizontal Machining Centers
- Up to 5-Axis Vertical Machining Centers

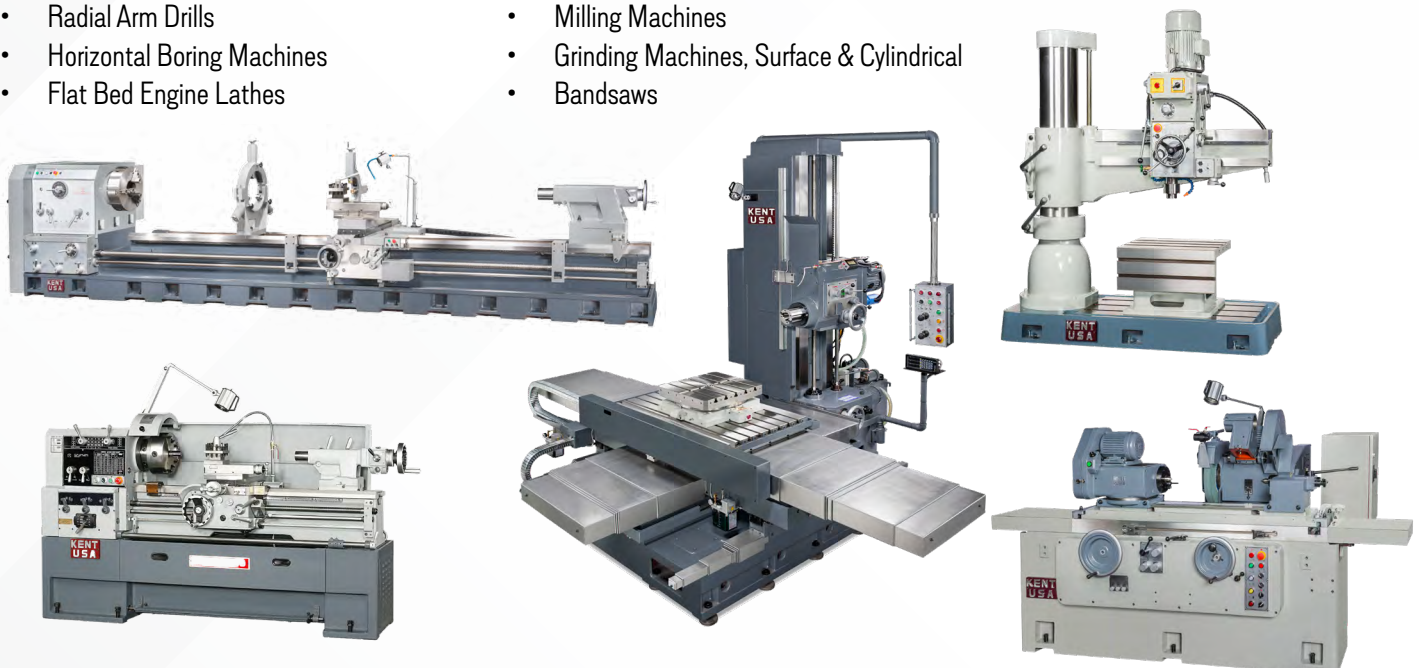

KENT USA

Kent USA provides precise and dependable machine tools including grinders, lathes, mills, EDMs, and CNC systems to manufacturers across the U.S. and abroad. Based in Tustin, California, the company has delivered quality and service for 45+ years.

Product Types available at Harris Machine Tools:

- Radial Arm Drills
- Horizontal Boring Machines
- Flat Bed Engine Lathes
- Milling Machines
- Grinding Machines, Surface & Cylindrical
- Bandsaws

NEW MACHINE TOOLS

SEIBU

Made in Japan, Seibu's wire EDM machines are equipped with multiple functions, achieving high productivity and high precision.

Product Types available at Harris Machine Tools:

- Ultra Precision Wire EDM Machines

ACCUTEX

With over 26 years' dedication to innovation as well as research and development, the Accutex team has been developing and mastering the cutting edge techniques in the WIRE CUT EDM field, thus establishing the company's core competition power in the stage of international business.

Product Types available at Harris Machine Tools:

- Wire Cut EDM's
- Die Sinker EDM's
- Large Format EDM's

NEW MACHINE TOOLS

OCEAN TECHNOLOGIES

OCEAN specializes in EDM drilling machines for molding and precision applications, including turbine blades, automotive parts, tooling, aerospace, and watch components. Its 3-5 axis CNC drilling EDMs offer advanced performance, supported by the company's rigorous quality control. Product Types available at Harris Machine Tools:

- Hole Drilling EDM Machines

PRECIHOLE

At Precihole Machine Tools, we take pride in our deep expertise across every machine we manufacture. With decades of experience and innovation in deep hole drilling, gun drilling, BTA drilling, skiving & roller burnishing, and other precision machining solutions, our dedicated team brings unmatched knowledge to each project.

Product Types available at Harris Machine Tools:

- BTA Drilling
- Gun Drilling
- Honing Machines
- Lapping Machines
- Facing Machines
- Straightening Presses

NEW MACHINE TOOLS

AMADA

The AMADA Group is a global manufacturer of metalworking machinery that develops, manufactures, sells, and services machines, peripheral equipment, tooling, and cutting tools and software for fabricating metal sheets.

Product Types available at Harris Machine Tools:

- Horizontal Post Cutting Saws
- Horizontal Scissor Style Saws
- Horizontal Mitering Saws
- Vertical Tilt Frame Saws
- Grinders
- Band Saws
- Carbide Circular Saws
- Milling Machines
- Iron Workers

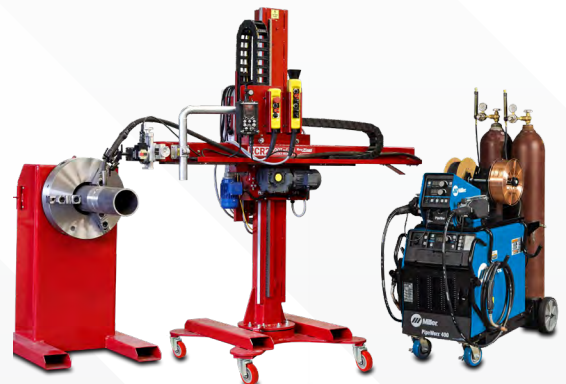

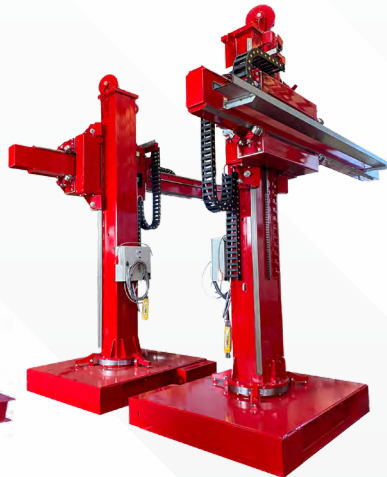

KEY PLANT AUTOMATION

Key Plant Automation designs, manufactures and supplies a wide range of innovative and accomplished welding automation products, along with exclusive engineering solutions for customers all over the world.

Product Types available at Harris Machine Tools:

- Welding Positioners
- Column & Boom Manipulators
- Welding Rotators
- Headstocks & Tailstocks
- Side Beam Welders
- Seam Welders
- Pipe Fabrication
- Floor Turntables

NEW MACHINE TOOLS

LASER PHOTONICS

Located in Lake Mary, Florida, Laser Photonics is recognized as a leading provider of industrial-grade laser solutions for cleaning, engraving, cutting, and welding. The company leverages decades of experience to deliver advanced laser-powered systems to a diverse clientele, ranging from small businesses to global giants.

Product Types available at Harris Machine Tools:

- Laser Cleaning Systems
- Laser Engraving Systems
- Laser Marking Systems
- Laser Welding Systems
- Laser Cutting Systems

BEAMER LASER MARKING SYSTEMS

Beamer Laser Marking Systems is an American manufacturer of laser marking systems, offering a wide range of turnkey machine solutions, all with an industry-leading 100,000+ hour lifespan. Manufactured, sourced, designed, and supported in the U.S., these systems guarantee reliability and superior performance.

Product Types available at Harris Machine Tools:

- Laser Marking Systems

NEW MACHINE TOOLS AND ACCESSORIES

ABSOLUTE MACHINE TOOLS

Absolute Machine Tools is a premier value added importer/distributor of quality machine tool accessories such as hydrodynamic magazine style bar feeders, short bar loaders, rotary tables, high pressure coolant systems, and oil skimmers.

Product Types available at Harris Machine Tools:

- Rotary Tables
- Bar Feeders & Loaders
- High Pressure Coolant Systems

SAMCHULLY

SAMCHULLY WORKHOLDING

Samchully Workholding, provides premium machine tool accessories and a comprehensive line of turning and milling workholding solutions. Founded in 1975, we have served customers globally for over 40 years. Samchully strives to satisfy our customers with outstanding quality, competitive pricing, and customer support.

Product Types available at Harris Machine Tools:

- Chucks (Power & Manual)
- Rotary Tables
- Steady Rests
- Jaws
- Vices
- Milling Tool Holders

WE ARE HARRIS MACHINE TOOLS

**SINCE
1979**

Headquartered in Houston, Texas, Harris Machine Tools, Inc. has been an international leader in the used metalworking marketplace for over 45 years. Since 1979, our team has worked to earn an outstanding reputation for quality, service, and integrity.

Over the years, we have developed long-lasting relationships with our customers both large and small. We are determined to work out whatever terms and conditions necessary to assist our customers in obtaining the quality used machinery they need for their own particular objectives.

With over 75,000 square feet of “Texas Sized” warehouse space - including a recently acquired 20,000 sq. ft. Heavy Assembly / Rebuild Facility with two 75 Ton cranes with 40’ lift capacity and heavy power in Houston, Texas and numerous storage facilities throughout the country, we are well prepared to fill any and all of your machinery and equipment requirements.

At Harris Machine Tools, we carry a constantly rotating inventory of high-quality new and used machine tools to meet the demands of a wide range of industries. Every piece is thoroughly inspected to ensure it meets our standards for quality and reliability.

A MESSAGE FROM THE PRESIDENT

As a family-owned and operated business since 1979, we are grateful for the long-standing relationships and trust we have built across the industry. Our commitment to doing things right, while doing the right thing, continues to guide everything we do.

Our people are our greatest strength, and their professionalism and dedication set us apart. As we head into 2026 with an exciting lineup of new machine tool technologies, we remain focused on supporting American manufacturing and earning your business for years to come.

Sincerely,

Jean Harris, Jr.

Jean Harris, Jr.
