About us

Design & Development

From the first stage, our engineering and technical team guides every customer to choose the right machine and technology for their specific application.

We understand that every industry has different needs, and our goal is to deliver solutions with accuracy, durability, and long-term performance.

Manufacturing & Production

With in-house manufacturing, advanced testing, and continuous R&D facility, we create machines that ensure high precision and consistency. Our development setup allows rapid prototyping, customization, and seamless technology integration.

At Tekon Printinx, we focus on delivering the right solution — not just a machine — with long-term support and a smooth experience from selection to installation.

Who are we

Printinks Technologies Pvt. Ltd., based in Faridabad, brings over 15 years of experience in delivering advanced, customized, and reliable marking, coding, printing, and signage solutions designed for long-term performance.

Today, **Printinks Technologies Pvt. Ltd.** stands as a complete solutions provider—delivering reliable, efficient, and high-performance technologies for industries across India.

What We Do

We engineer and supply a wide range of industrial machines, including thermal inkjet printers, multiple types of laser systems for marking, cutting, engraving, and welding, dot peen marking machines, CNC routers, pad printing machines, and large-format printing solutions.

Our Global Association

With authorized partnerships across leading brands such as **MIMAKI**, **POLYTIJ**, **MESSER**, and **SERICOL**, **Bradma**. We deliver trusted global technology, reliable support, and long-lasting performance for every industry.

Our Products

Thermal Inkjet Printers

Handheld Thermal
Inkjet Printers

Online Thermal
Inkjet Printers

Our **IMPRINT** Inkjet thermal systems support multiple surfaces and offer reliable printing for batch codes, barcodes, and product marking needs.

Models: 12.7mm to 100mm print heights.

Surfaces: Cartons, pouches, metals, plastics, bottles, cables, labels, laminates

Applications: Batch/MRP/expiry codes, barcodes, QR codes, logos, product marking

Pad Printing & Screen Printing Machines

Our **IMPRINT** Pad Printer Designed for small parts and detailed branding, IMPRINT pad printers deliver sharp, consistent prints from single-color to multi-color jobs.

Models: Electric & Pneumatic - Pad Printer & Screen Printing machine

Variants: Single Color, Two-Head Single Color, Double Color, Four Color & Six Color

Ideal For: Tools, accessories, electronics, medical items, toys, auto parts & promotional products

Screen Printing
Machine

Pneumatic Pad
Printer

IMPRINT Laser Machines

Our **IMPRINT** Laser systems deliver clean, accurate, and long-life performance across multiple materials.

Models: Fiber/Co2/ UV Laser Marking Machines, Co2 Laser Cutting, Metal Laser Cutting and Laser Welding Machines.

Works On: Metals, plastics, wood, acrylic, paper, leather, rubber, electronics components

Ideal For: QR codes, barcodes, serial numbers, batch codes, logos, graphics, UID marking, part identification, deep engraving, product branding

Portable Laser Marking Machine

Desktop Laser Marking Machine

Laser Welding Machine

Laser Cutting Machine

Dot Peen Machines

Our **IMPRINT** Dot Peen Systems Built for permanent, deep, and industrial-grade marking.

Models: Portable/Pneumatic/Tabletop

Works On: Metals, alloys, steel plates, nameplates, tools, machinery parts, automotive components

Ideal For:

Serial numbers, batch codes, VIN numbers, alphanumeric text, barcodes, QR codes, logos, part identification, nameplate marking, asset coding

Portable Dot Peen Marking Machine

TableTop Dot Peen Marking Machine

CNC Routers

Our **IMPRINT** CNC Router Systems engineered for accurate cutting, shaping, and engraving, our CNC wood and stone routers deliver smooth, consistent results for both industrial and creative applications.

Models: CNC Wood Router, CNC Stone Router

Works On: Wood, MDF, Acrylic, PVC, WPC, ACP, Foam, Marble, Granite, Soft Stone

Ideal For:

Sign boards, decorative panels, furniture parts, nameplates, wooden crafts, stone engravings, architectural designs, interior décor work

CNC Wood Router

CNC Stone Router

Large Format Printers

We provide large format printers from our in-house Indian Brand **IMPRINT** and the globally trusted Japanese Brand **MIMAKI**, delivering cost effective, reliable and high-quality printing for signage and commercial production.

Our Valued Clients

For more than 15 years, we have delivered reliable marking, coding, printing, and signage solutions for small and medium businesses across the India. Our long experience and proven installations give us the strength and expertise to meet the advanced production needs of today's industries.

Cost Efficiency

- Uses less power, reducing daily cost.
- Needs minimal maintenance.
- Long-lasting machines, no frequent repairs.
- High speed saves time and labour.

Reliable Support

- Fast service and technical support.
- Skilled engineers for on-site or remote help.
- Quick spare parts supply to reduce downtime.
- Regular maintenance for smooth machine running.

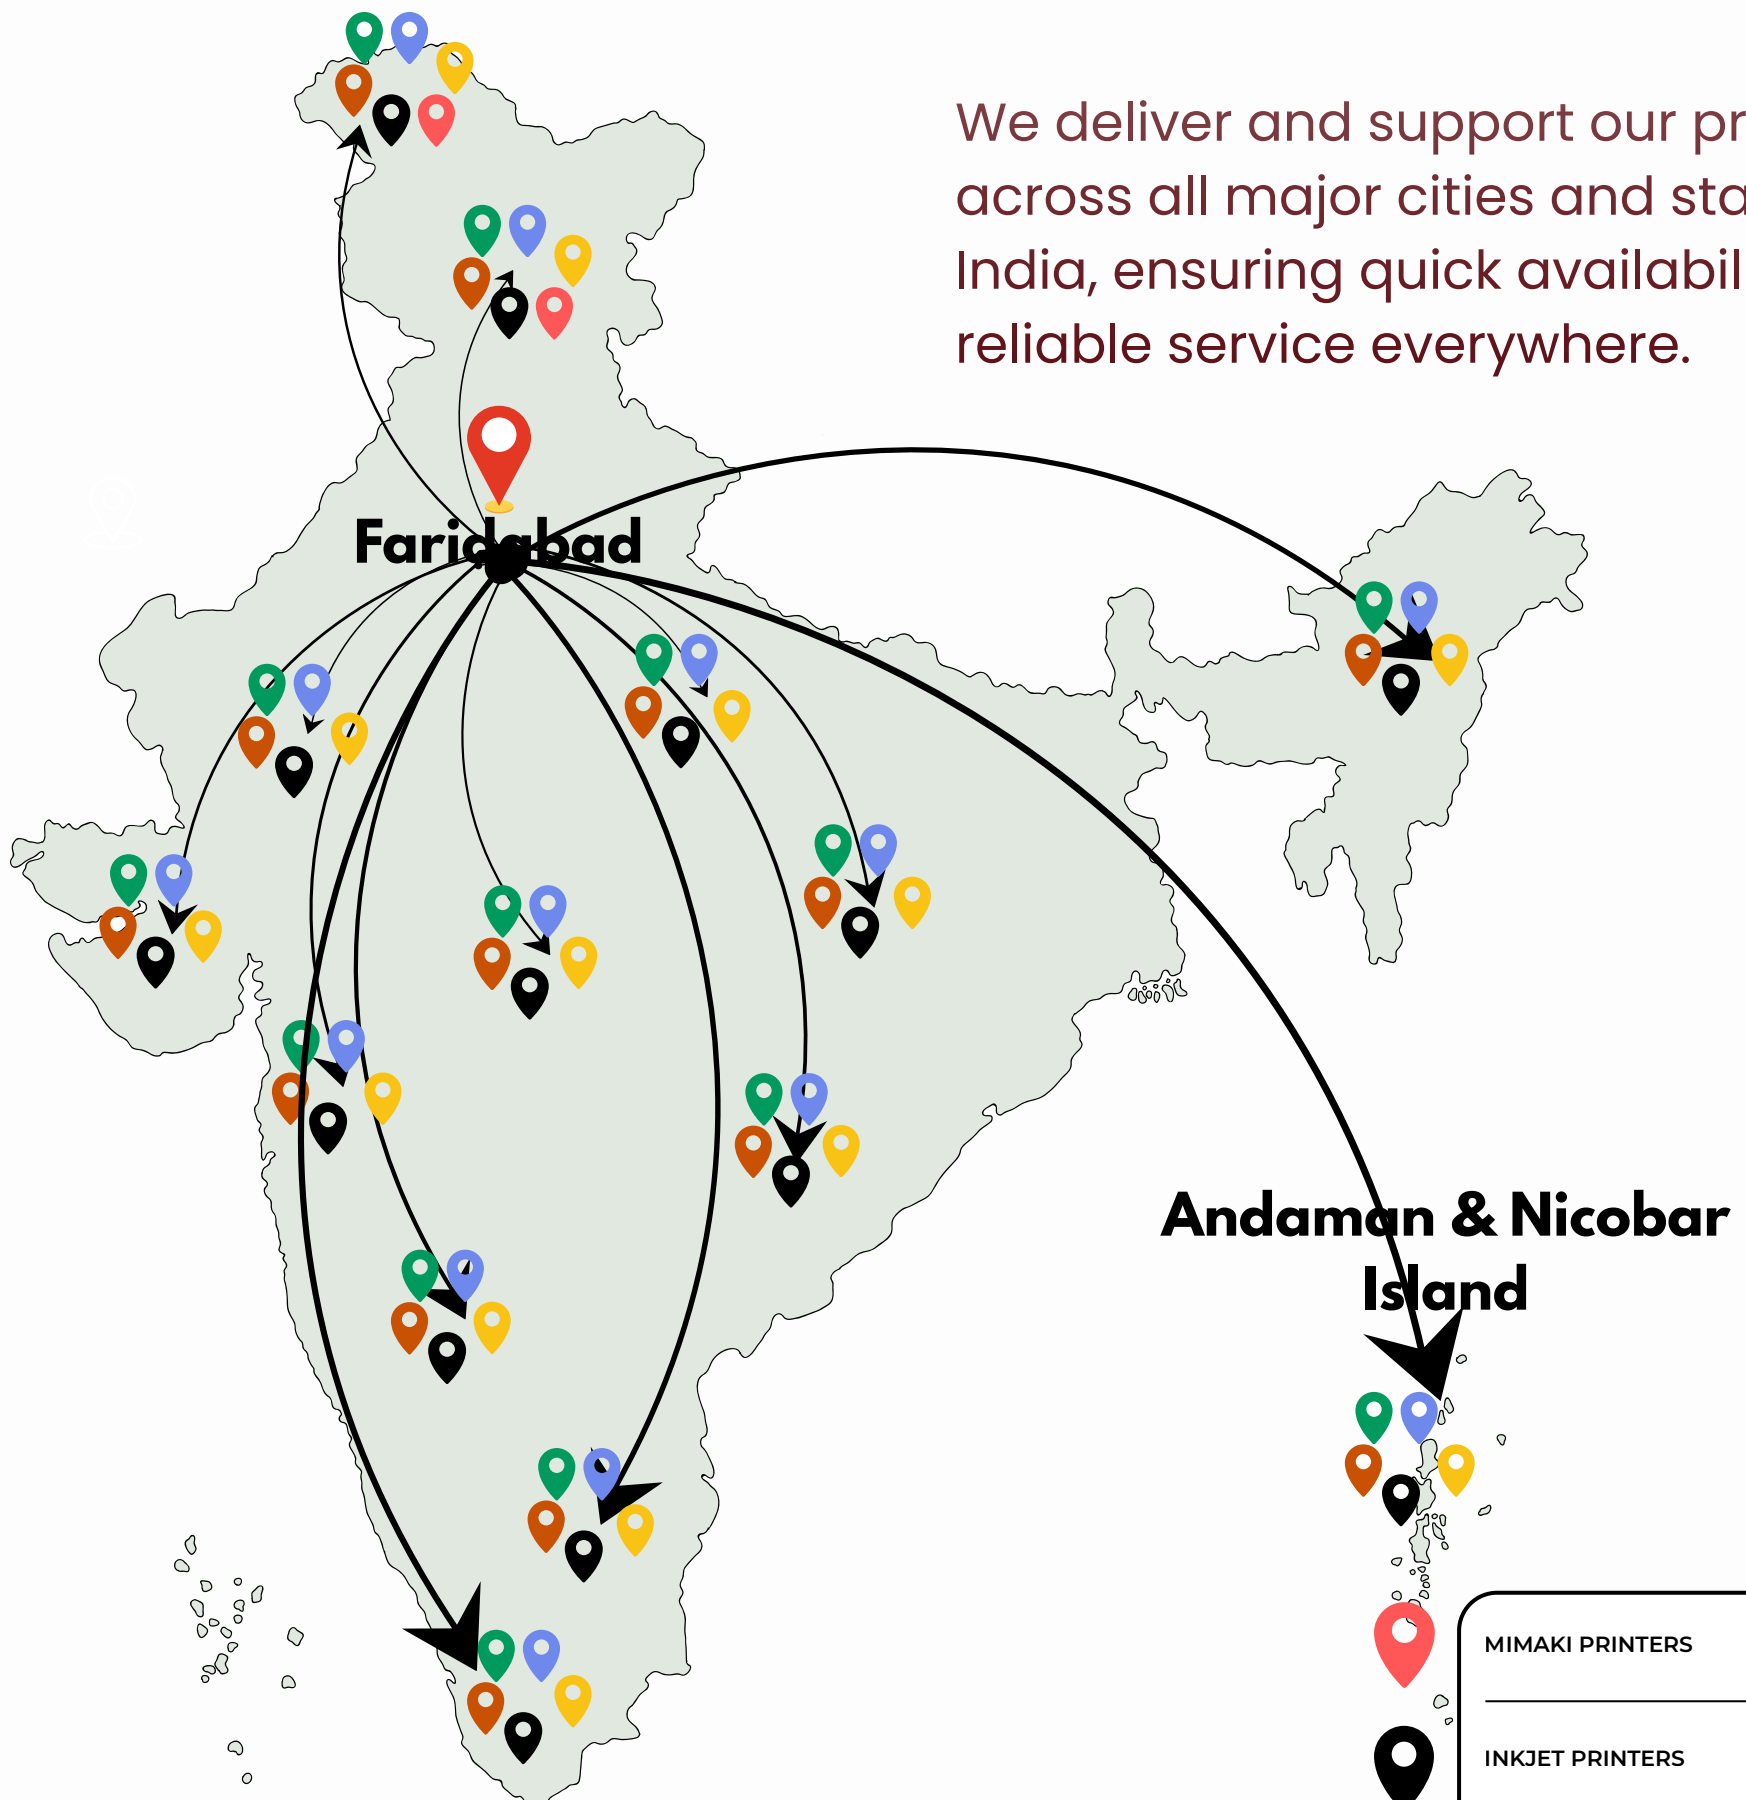

Faster Execution

- Quick machine setup for immediate operation.
- High-speed performance to finish jobs faster.
- Smooth workflow that reduces production time.
- Faster output helps you handle more orders efficiently.

Pan India Distribution

We deliver and support our products across all major cities and states in India, ensuring quick availability and reliable service everywhere.
